**This amendment is raised to answer a question asked from a Potential bidder:**

**Question:**

When providing a response to **Section 4.1.1 (2), Mandates and Clients** can you please confirm if a proposal submitted as a Joint Venture can include temporary help service mandates provided by any one of the Joint Venture members?

**Answer:**

If the offer is submitted by a joint venture, the members of the joint venture cannot pool their capacities to satisfy technical evaluation criteria 4.1.1 (2). The Offeror must indicate which member of the joint venture meets this criterion.

For the security clearance all members of the joint venture must meet the security clearance defined in the solicitation document.

**All other terms and conditions of the solicitation remain the same**
