**This amendment has been raised to make changes to the specifications and to respond to the following questions:**

**A. SPECIFICATIONS**

Under Section 05 50 00 METAL FABRICATIONS

Insert the following Clauses:

2.1.5 Anchor rods: to ASTM A193 Grade B7 (Fy=725 MPa; Fu=860 MPa)

2.1.6 Nuts and washer: to ASTM A325

**B. QUESTIONS & ANSWERS**

**Question #1**

Anchor Bolts for Bridge Rails: PWGSC spec size at 25mm by approx. 500mm. Standard Hilti Anchor Bolts for 25mm sizing are a maximum of 300mm. Is there another product you are looking spec as the specs do not itemize the anchor bolts.

**Answer #1:**

Refer to amendment to specifications under Division 05 METALS, Section 2.1.5 noted above. No proprietary product is specified.

**Question #2**

QA QC is by the contractor: a) What frequency of concrete testing do you require given the total amount of concrete on the project is less than 25 cubic metre?

b) Embankment spec shows 98% SPD given the small amounts of imported fill required and the expense of third party testing if the contractor displays due diligence in completing embankment compaction will the crown waive the requirements for compaction testing?

**Answer #2:**

a) Concrete testing shall meet the requirements presented in the specifications. Additionally at minimum one sample per batch or per abutment.

b) Third party testing of the embankment fill material is required.

**Question #3**

Would the use of a premixed bagged 35MPa Concrete mix be acceptable to the crown? If this were acceptable would the contractor be able to complete the trial mix at the manufacturing plant rather than on site?

**Answer #3**

The use of premixed bagged concrete was addressed in previous addendum (Amendment 03). The trial batch would need to be completed under similar conditions as will be completed during construction. As an example, if a portable batch plant were proposed, this would need to be used in production of the trial batch though would not need to occur at the site.

**All other terms and conditions of the Invitation to Tender remain unchanged.**
