**Solicitation Amendment #002 is raised to extend the closing date to May 6, 2016 and modify the following terms and conditions in the RFSO:**

**At page 1 of 84, Solicitation Closes:**

*Delete: "2016-04-29"*

*Insert: "2016-05-06"*

**At page 16 of 84, 7.11 Return Policy, section (b):**

*Delete: "within 5 days of delivery"*

*Insert: "within 2 days of delivery"*

**At page 16 of 84, 7.12 Product Dating:**

*Delete in its entirety and replace with the following:*

**7.12.1 Minimum Shelf Life**

Products with more than six (6) months remaining at the time of manufacture must have a shelf life of no less than 6 months expiry on the date of delivery. Should the applicable product have an expiration of less than 6 months, the Contractor must notify the Identified User in one of the following two ways at the time the Identified User places its order for the product:

- a) via a flag on the Contractor's electronic ordering system; or
- b) via telephone or e-mail.

Shorter product expiration may require the Identified User to reduce or cancel the order quantity. Should authorization be given to the Contractor to provide product with an expiry date of less than 6 months then the Returns Policy specified will apply to that product. Failure to notify the Identified User may result in the return of the shipment, at the Contractor's cost.

**7.12.2 Stockpile or Deployment Orders**

For some orders, the Identified User requires the product(s) for stockpiling purposes or mission deployments and will require the best available dating from the manufacturer. In such cases, the Identified User will contact the Contractor ahead of order placement to ensure best dating can be obtained directly from the manufacturer. Delivery must be completed within 7 business days for such orders.

**At page 19 of 84, Annex A, 4.4 Maintenance of Temperature Control During Transportation:**

*Delete in its entirety and replace with the following:*

All products supplied under the Standing Offer must be shipped in accordance with Health Canada's approved Good Manufacturing Practices (GMP). For products requiring specific temperature control (ie: ambient or refrigerated temperatures), the Contractor must comply with GMP and further ensure that the products are

maintained in accordance with the approved product label and/or Product Monograph specifications throughout storage and transport from the Contractor to the Identified User's designated delivery point.

For certain orders, the Identified User may require the Contractor to provide evidence of temperature control during transportation. Where applicable, the Identified User will notify the Contractor 48 hours in advance by phone or on the call-up document that a temperature monitoring device is required for the order. The Contractor must use either a continuous electronic temperature-monitoring device, color cold chain chemical indicator (heat & freeze) or any other device which is satisfactory to the Identified User. The Contractor will notify the Identified User of the results within 24 hours of receipt upon the devices return to the Contractor's facility. The Contractor will be responsible for any costs associated with the temperature control device.

**All other terms and conditions remain unchanged.**
