KILN DRIED FIREWOOD

Amendment No. 001 is raised to answer questions and amend the Solicitation as follows:

Amendment No. 001 is raised to answer:

QUESTION 1: Please advise if the park is available to unload us on that end and what type of packaging do you request, eg can it be dumped or does it need to be on pallets?

ANSWER 1: The wood must be delivered shrink wrapped on pallets in accordance with the Statement of Requirements. The park (Riding Mountain) will provide an operator (fork lift) to remove the pallets from the back of the delivery vehicle during each specified delivery date. The wood provider is responsible to ensure that the delivery driver arranges and places the pallets in such a way for the park operator to remove them from back of the vehicle. The park operator will ensure the pallets are removed from the delivery vehicle and placed in the wood yard.

QUESTION 2: Regarding the weight rating of the bundles, is there an explanation for that? It seems like you are going to get kiln dried firewood to the weight rating instead of percentage of moisture?

ANSWER 2: The weight rating of the individual bundles is required in order to regulate the size of each bundle delivered for its intended use to burn in campground fireboxes. Please reference amendment 2 regarding moisture.

QUESTION 3: A lump sum single payment is included in the solicitation. Can this be changed to 30 days from each delivery date?

ANSWER 3: The solicitation is modified to multiple payments (reference amendment below).

Amendment No. 001 is raised to amend:
