**THE FOLLOWING AMENDMENT TO THE TENDER DOCUMENTS IS EFFECTIVE IMMEDIATELY. THE AMENDMENT SHALL FORM A PART OF THE CONTRACT DOCUMENTS.**

**1. Revision to the Specifications and revised Drawings**

DSP 4.zip contains the following:

1. Revisions to the specifications document, see "addendum 1 (april 27-16).pdf"
2. Revised drawings showing existing sign locations and details see "C-1 –R1.pdf" and "C-3 –R1.pdf"

**2. Questions and Answers:**

Q5) It states that the new replacement bridge shall be open to traffic prior to the October 1, 2016, Is this time frame correct?

A5) Please see attached addendum. Bridge construction by November 30, 2016, Final completion date June 30th.

Q6) Lump Sum Item 2 - Special Procedures for traffic control states "signage and barricades for closure of rest area and picnic area". What are the locations of the rest area that will be closed?

A6) Clause revised. See "addendum 1 (april 27-16).pdf" in "DSP 4.zip"

Q7) Lump Sum Item 4 - Selective Site Demolition states "The removal, transporting and disposal of existing driveway culverts". Where are these culverts located?

A7) Clause removed. See "addendum 1 (april 27-16).pdf" in "DSP 4.zip"

Q8) Lump Sum Item 5 - Concrete Reinforcing GFRP. Is there quantity for tonnage that should be attached to this unit?

A8) Lengths are depicted and quantified within reinforcement bar schedules within the structural drawings.

Q9) Lump Sum Item 6-Temporary Modular bridge, Will this bridge remain property of Parks Canada after it is removed from the site?

A9) Components shall not become property of PCA. See "addendum 1 (april 27-16).pdf" in "DSP 4.zip"

Q10) Lump Sum Item 7-Pavement Marking. Is there a drawing that shows what marking is required and how long of a stretch of highway is affected?

A10) Match existing within limits of contract. Pavement markings are solid yellow and to be from contract limit to contract limit.

Q11) Unit Item 3-Precast Structural Concrete Beams NEBT 1800, Could post tension girders be manufactured on site?

A11) No, this would be a design change.

Q12) Unit Item 7- Traffic Signage. Is there a drawing showing what size of signs, material required for each and location where each sign is required?

A12) Signs and details to be shown on plans (1 Regulatory and 2 Parks signs). Drawing should be revised and re-issued to show existing sign locations and details. (See "DSP 4.zip")

Q13) Will the excess material removed from the North side to accommodate the diversion be allowed to be used in the South side of the diversion?

A13) If excavated material meets specifications and is approved by Departmental Rep, it can be used.

Q14) The drawings don't show a concrete footing on the abutment walls. Is this correct or is this an oversight  
A14) Drawings are correct - integral abutment bridge.

Q15) Is an AASHTO 6 girder a suitable alternative for the NEBT 1800 girder shown on tender documents?  
A15) No, this would be a design change.

Q16) A landscaping subcontractor advises that the mulch specified is unsuitable for blown mulch. Please clarify.  
A16) Mulch has been used in previous tenders. Contractor may have to look for alternative sub-contractor.

Q17) We have been unable to locate a subcontractor that has a tar pot with an agitator, as required by the spec for the deck waterproofing. Would a torch-down waterproofing be acceptable? It has been acceptable for other Parks Canada projects. Please advise.

A17) Contractor must submit an alternative product for review. Contractor must bid as specified.

By submission of its tender, the Tenderer confirms that it has read and understands the requirements expressed in all addenda and has included all costs of these requirements in its Total Tender Amount.

**All other terms & conditions remain unchanged.**
