This amendment 002 is raised to answer the following questions:

Q.1 Some measurements in Annex B are unreadable. (I've guessed most but I need to confirm the overall length measurement and the aisle measurement.)

A.1 Overall length is 29' 6 7/16". Aisle width is 48 9/16" except U5 and U6 which is 32 9/16".

Q.2

6.5 Rail sections must extend under and be attached to all stationary ranges in a manner so as to equally disburse the load range weight to the rail and to the grout in a manner of equal or greater surface disbursement as a movable range.

Does this include where the existing 18 inch wide cabinets go?

A.2 No, just that the area is flush with the bottom of the cabinets.

Q.3

6.15 Rail skirts must be utilized wherever rail ends are exposed.

Can you indicate where walls are so we can determine number of skirts? Is there a wall at the back and each side?

A.3 There is a wall on the right and rear of the shelving.

Q.4

9.4 Carriage cross members must be welded C-shaped steel channels.

This is proprietary. We use superior riveted technology. Can you delete or add riveted accepted?

A.4 Riveted or welded is acceptable.

All other terms and conditions remain unchanged.
