**This solicitation Amendment 001 is raised to provide this questions and answers set 1.**

### **Questions and Answers Set 1**

#### **Question 1**

The design in your solicitation is for a plate type would technical department be open to look at shell and tube design?

#### **Answer 1**

No, we would like the titanium plate type heat exchanger as stated in the Statement of Work.

#### **Question 2**

With respect to the following requirements:

paragraph 3.2.3 & 4, Annex A, SOW 10m3 Evaporator  
paragraph 3.2.3 & 4, Annex B, SOW 6m3 Evaporator

It seems that these specifications can only be met by a single manufacturer.

Was this the intention of this solicitation or will alternates be allowed that are still able to meet all the other requirements and performance targets of the solicitation?

#### **Answer 2**

The intent of the solicitation is to have an evaporator that meets the requirements as stated in SOW. No alternates will be allowed.

#### **Question 3**

I would ask that the shell and tube design be considered as a suitable alternative.

#### **Answer 3**

No alternates will be allowed.

#### **Question 4**

If the bidder can meet the thermal performance as well as the footprint requirements would you accept it?

#### **Answer 4**

No alternates will be allowed.
