## **Amendment 2**

This amendment has been issued to answer questions from bidders.

- Q1.** Is it the intent of the contract to have 4m of a 6.8m traffic lane open to public during construction?
- A1.** The Contractor may close 1 portal of the tunnel during Working Times and direct traffic under a dual directional arrangement through the adjacent tunnel as to be detailed in their Traffic Management Plan. This does not allow Single Lane Alternating traffic. Management of excess dimensions traffic through flagging will be required. Both portals of the tunnel shall be fully open during all non-Working Times.
- Q2.** Can the entire lane be closed to traffic for 10 hours a day from 8pm to 6am for the duration of the install (ex. 6 days a week, 4 weeks per side)?
- A2.** Night work may be requested following Contract Award. The Contractor will be responsible for meeting all reasonable requirements in regard to public and worker safety, traffic operations and network performance, environmental mitigations, and addressing all other concerns. Night work shall not commence, unless approved in writing by the Departmental Representative.

**All other terms and conditions remain unchanged.**
