Solicitation Amendment #02

I. The following questions were posed by industry:

Q1: Part 1, 1.1.1, 1. (a): It is understood that a valid DOS is a requirement of the bidder. Given the process to obtain a DOS can take 6 to 12 months and the delivery requirement for the equipment is approximately 3 months, is it a mandatory requirement that a bidder must already hold a DOS at the date of bid closing?

R1: DOS security requirement has been removed from the requirement.

Q2: Annex A, 4: Does delivery and set-up include unloading from the truck, moving into position and performing electrical hook-up or is some or all of this to be performed by ACS? If movement of the machine is required by the contractor, please provide the site conditions;- grade or loading dock; door size, distance from door to installation location, type of floor etc. Please confirm the floor will support the load with no requirement for a foundation? If electrical hook-up is required by the contractor please indicate the distance to the disconnect and confirm a disconnect is provided for connection to?

R2: Delivery and set-up includes unloading from the truck, moving into position and performing electrical hook-up. Movement of the machine is required by contractor.

Door size into shop - 8'W'7'11"H

Grade - zero

Distance from door to installation location - 40'

Cement floor

No requirement for a foundation

Electrical hook-up is required by the contractor

Distance to the disconnect – 50'

A Disconnect is required for connection.

A suitable transformer must be supplied if power is other than 600V,60Hz,3ph or 208V, 60Hz,3ph

II.) For further clarification, this document serves to amend the solicitation as follows:

At Part 1, 1.1 Security Requirements

Delete: in its entirety

At Part 6, 6.1 Security Requirements

Delete: in its entirety

All other terms and conditions remain unchanged.
