For the Minister - Pour le Ministre		

This amendment is raised to address the following questions received on the tender:

- Q1. Would the RCMP be willing to include Coyote Brown as a suitable alternative to the requested FDE colour?
- A1. If Flat Dark Earth (FDE) is a problematic colour to produce/provide, a similar Coyote Brown colour or colour tone would be an acceptable alternative.
- Q2. Has Public Works factored in issues of potential delivery delays that may be caused by a patent holder filing for injunctive relief in the event an infringing product receives an award?
- A2. The requirement is for a product having the features and specifications articulated. It would be up to the manufacturer to ensure any products they produce do not infringe on others patents (perceived or otherwise). Unnecessary delays as far as delivery may involve consideration of subsequent offers.
- Q3. Annex A Mandatory Specification 40 states "the parts listed herein must be available, provided, and installed by the manufacturer or distributor upon delivery as requested by the RCMP at time of call-up." This suggests that the final configurations may be subject to change depending on the call-up. Please confirm.
- A3. There are three specified configurations the RCMP will order and will remain the same for the identified firearms (870 Breacher Gun, M16, and REM 700). The Offeror is to provide the fully assembled slings with the components specified for the RCMP personnel to install the slings on the weapons. The slings require the correct attachment method for the corresponding firearm. Pre-configured slings will help alleviate the labour and logistics of the application on the armoury end.
- Q4. Items 45 and 46 are for components not indicated in the sling photographs provided. No Uloop is pictured, no Burnsed socket is shown. The 2 point to 1 point adaptor shown in the picture is an Impact Weapons 2 to 1 point triglide, the Burnsed socket is significantly different.
- a. Are the sling configurations to be fixed based on the descriptions provided in the solicitation?
- b. Is the Uloop to be included in one of the sling configurations?
- c. Is the Impact Weapons triglide shown in the pictures to be replaced with a Burnsed socket?
- A4. a. Yes, the sling configurations must be as specified in Annex A, Requirement of the solicitation.
- b. The Uloop is for special application only and is not part of the identified configurations. The bulk of requirement is for traditional type swivels and the Burnsed socket.
- c. Yes, a Burnsed socket is what is being requested.
- Q5. Is RCMP looking for a substitute for Vicker Slings?
- A5. The RCMP is looking for slings meeting the mandatory specifications listed in this solicitation.
