## AMENDMENT 002

This amendment is being raised to respond to questions submitted in response to solicitation 5P420-16-5072/A:

### A. QUESTIONS AND ANSWERS

Q1. Under section 01 1400 work restrictions, there is discussion about no lane closures during July and August but if required it must take place between 7 pm and 7 am. Does this mean that the contractor can have single lane alternating traffic from 7 pm to 7 am throughout July and August?

A1. Refer to Section 01 14 00, Clause 1.2.8.2. No lane closures are permitted between July and August inclusive, unless authorized by the Departmental Representative and the Field Unit.

Q2. Under section 31 24 13 Roadway and Drainage Excavation, page 93, .3 Type D-Unsuitable Haul to Waste. Please advise the location of "a suitable disposal facility" or a location to stockpile the waste material.

A2. The Contractor must load, haul and stockpile Type D material at Mannix pit. The location(s) within Mannix pit for the stockpiling of this material will be as directed by the Departmental Representative. Mannix pit is located along the Trans-Canada Highway (TCH) km 50. Chainage equation is Hwy 93 South km 0 = TCH km 47.

*All other terms and conditions remain the same.*
