This Solicitation Amendment 001 is raised to incorporate Questions and Answers received, and to amend wording on the REQUIRED SERVICES (RS) section of the Request For a Standing Offer document.

All other terms and conditions remain unchanged.

Q1.) Please clarify if the 1 page CVs of senior personnel and project personnel are included within the 10 page limit? If so, would PWGSC consider increasing the page limit for the rated requirements since that would leave very little remaining space to fully address the requested information under "Management of Services" and "Past Experience."

A1.) Yes, the CV pages account for the 10 page limit. The 10 page limit remain in effect.

Q2.) In the Proposal Format Requirements, each section is to be separated with tabbed dividers. Would PWGSC consider removing this requirement and alternatively allow the insertion prominent headings at the beginning of each section identifying the four rated requirements? This will allow every full page to be utilized in addressing all the rated requirements requested within the page limit.

A2.) The function of the tables are to identify the areas of the proposal, there is no requirement for blank pages.

Q3.) Required Services, RS2 Scope of Services:

RS2.1 Field Evaluation and RS2.2 Detailed Condition Assessment Report relate to Building Envelope Services which correspond to the SOA title. However RS2.3 Building Condition Report relates to assessment of buildings and their mechanical/electrical systems.

Question: We would like to clarify if this SOA is for Building Envelope or for Building Condition Assessment or for both.

A3.) The Detailed Condition Assessment report RS2.2 is meant to refer only to the envelope rather than other building systems. Please delete Building Condition Report RS 2.3.

Q4.) Submission Requirements and Evaluation, 3.2.4 Project Personnel Expertise and Experience:

Paragraph .2 reads that 'A demonstration that the Proponent has the project personnel in-house..' with Paragraph .3 reading 'In-house personnel means personnel within the Proponent's organization. Past expertise and experience of personnel not within the Proponent's (or joint venture Proponent's) organization will not be considered in the evaluation.'

- RS3 indicates Class D to Class A Cost Estimates with Life Cycle Cost Analysis which would require the services of a Quantity Surveyor.
- If this SOA is to include Building Condition Assessment (and not limited to Building Envelope Assessment), then RS2.3 indicates mechanical and electrical system evaluations which would require both Mechanical and Electrical Consultants.
- In addition, RS 2.2.1 indicates 'a review of structural implications of corrosion and/or deterioration of framing and sheathing components' where a Structural Consultant would likely be required.

Question: Is this SOA opportunity only available to a single firm who can provide all the above services in-house? We understand that a Joint Venture is possible however this is impracticable given the number of Consulting firms involved. Please confirm.

A4.) Delete RS 2.2.1, in house structural expertise is not required.

Q5.) The price proposal form only lists personnel for one discipline with no separate categories for the various consultants (if applicable).

Question: Please confirm if we are to include price proposal information for the various consultants.

A5.) The price proposal form is for in-house Architectural Engineering services.

In the Request For a Standing Offer document, under REQUIRED SERVICES (RS) section, Article RS 1.1 General Objectives, paragraph 7;

DELETE: All documents (drawings and specification) are to be produced in accordance with Appendix E "Doing Business" and at project delivery stage as described in each individual Call-up.

INSERT: All documents (drawings and specification) are to be produced in accordance with Appendix C "Doing Business" and at project delivery stage as described in each individual Call-up.
