This amendment (1) seeks to make the following changes as well as extend the end date to 2016-08-15:

1) At Part 4, section 1.1,
Delete:

A first article for each cabinet indicated at Annex "A", point 3.2 will be required as well as all the mandatory accessories listed at 3.3. The first article for Item #1 **MUST** be a 36" high. For each of the items 2, 7, 8, and 9, Offerors can send their first article within the height parameters set out in 3.2. Each first article must clearly indicate which item they are being submitted for.

Insert:

A first article will be required as follows:

Type A: In order to approve items 1.1; 1.2; 2.1; and 2.2, only one first article may be submitted if the Offeror provides, along with the complete engineering drawing package, confirmation that the only difference between the items is the height. This confirmation is required for each item.

If more than the height differs, a first article will be required for each different cabinet.

Type B: One first article will be required for type B when the cabinet body and door have different external features.

For example, if items 8.1; 8.2; and 8.3 all have top exhaust fan and the secure cable entry but they offer different sizes and interior configuration, only one first article is needed to evaluate one of them.

If items 8.4; 8.5; and 8.6 offers the same as 8.1 but also have louvers or any other features penetrating the body or door, then a first article would be needed for evaluation for 8.4; 8.5; and 8.6, in addition to the first article submitted for 8.1; 8.2; and 8..

If the same feature(s) appear on different size cabinet, only one is needed to evaluate.

2) At Annex "A", 3.2 Cabinet Dimensions, delete the table and replace it with Table 1 attached hereto.

3) At Annex "B", delete in its entirety and replace with Annex "B" attached hereto.
