**QUESTIONS AND ANSWERS**

**Question 1**

The question concerns the rock anchors. On Drawing 04, we see that they are connected to the damper block with 15m cable (16mm). However, on the rock anchor detail, it is written 19mm chain.  
What is the correct information?

**Answer :** The cables that link the floating docks to the anchor blocks have a nominal diameter of 16 mm. The chains that attach the floating docks to the damper blocks have a nominal diameter of 19 mm.

**Question 2**

What bolts must be used to fix the various assemblies?

**Answer :** Drawings contain descriptions of most of the bolts required in the project. The specifications also contain a description of the required metal parts (section 05 50 00). If information is missing on one or many specific bolts, please give us more precision.
