(amendment 001)

Cost, Time and Risk  
Request for Information

Canada will shortly undertake the rehabilitation project of the Centre Block (CB) on Parliament Hill. Requirements for major rehabilitation projects such as this generally require the Canada to retain 3<sup>rd</sup> party consultants for planning and scheduling (time management), budgeting and estimating (cost management) and risk.

For the Center Block rehabilitation project, Canada is combining these three requirements into one mandate.

In order to make an informed decision on the extent of services required, Canada wishes to consult with industry on this approach. To this end, Canada has the following questions for industry:

1. Does the work requested in the attached Statement of Work align with industry standards and practices?
2. Are there any benefits to industry by having cost, time and risk requirements with the same Contractor?
3. Are there any risks to industry by having cost, time and risk requirements with the same Contractor?
4. Could your company provide all the resources requested or would you have to team up with another company to provide all the resources requested?
5. Would it be preferable to request a fixed monthly fee basis of payment or should an hourly rate be used?
6. Do you have any recommendations that would result in increased competition?
7. Do you have any recommendations that would reduce the risk to Canada?
8. Do you have any recommendations that would reduce cost to Canada?
9. What is a reasonable approach to economic price adjustment of the duration of this subsequent contract.
10. Is there Aboriginal capacity to perform the work requested?
