Amendment number 002 is raised to provide answers to questions received during the solicitation and to modify the solicitation as required:

1) Questions and Answers:

Q1 - Regarding your re-tender W8486-163210/B and the "Equivalent Products" clauses 3.1.1 & 3.1.1.1, we want to bring to the attention of the Crown the excessive costs of samples that are being requested. We request that samples be paid for, unless contract is awarded, at which point the costs of the samples can be absorbed into the contract.

A1 – This clause remains unchanged.

Please note that a sample is requested only if required, as per clause 3.1.1.1, "...Canada reserves the right to request a sample...".

Q2 - Please also confirm that the tendering process remains fair and that all bidders must delivered DDP without any negotiation of delivery terms upon contract award.

A2 - It is confirmed that DDP is non-negotiable for this solicitation – reference:

- a) "This bid solicitation cancels and supersedes previous bid solicitation number W8486-163210/A, dated February 25, 2016 with a closing of May 18, 2018..." comment found on Page 1 of the terms and conditions of the RFP document; and
- b) PART 6 – RESULTING CONTRACT CLAUSES, 6.15 Shipping Instructions – Delivery at Destination.

Q3 - With regards to the statement within 4.1.1.2 "or that the proposed manufacturer has previously manufactured the items or provide other information for technical's review and acceptance to support the manufacturers capability", if we have produced this same part for other NATO military customers then according to this statement our product would be acceptable. Please clarify this statement.

A3 – This statement at 4.1.1.2 has been deleted (see amendment to clausung below).

2) **Solicitation Amendments**

a) **At:** PART 2 – BIDDER INSTRUCTIONS,

INSERT:

2.5 Assurance of NSCM Traceability

ASSURANCE OF NSCM (NATO SUPPLY CODE FOR MANUFACTURER) TRACEABILITY:

For the purposes of this solicitation, the NSCM (one or more) specified in this Request for Proposal (RFP) is the only approved source(s) of supply for the part number it is referenced with.

When the specified part number is proposed for supply by the bidder, the related specified NSCM will only be offered by the bidder if the material to be supplied as the specified part number can be traced with documentary evidence directly to the NATO approved source of supply.

In the event that the bidder proposes to supply, under the specified part number, material which can neither be demonstrated by the bidder as originating directly from the approved source of supply nor as supplied under the specified NSCM with the specific written permission of the approved source of supply, the bidder is obligated to specify the alternate manufacturer for the material proposed under the specified part number and not mention the specified NSCM.

Material supplied for the items specified in any subsequent contract will be subject to investigation by the Crown. Material which can neither be demonstrated by the contractor as having originated directly from the NSCM specified for the item in the contract, nor as supplied with the specific written permission of this specified NSCM, will be subject to the following action by the Crown.

The Crown may either:

- a) terminate the contract for default with respect to that item, return the item to the Contractor at the Contractor's risk and expense, and demand and receive from the Contractor (who will forthwith so pay) all reprocurement and other costs incurred by the Crown, including any increased costs required for the purpose of expediting production; or
- b) retain the item, and demand and receive from the Contractor (who will forthwith so pay) the difference between the Contractor's costs relating to the item, as determined by the Crown, and the costs which, in the Crown's opinion, the Contractor would have incurred had it obtained and supplied an item which did not differ in any way from that specifically required under the contract.

b) **DELETE:** PART 4 – EVALUATION PROCEDURES AND BASIS OF SELECTION,
in it's entirety.

INSERT:
