**This amendment is raised to respond to bidder questions and to extend the solicitation closing date until September 13, 2016.**

The closing date for tender 5P420-16-5127/A, titled "Barge Services to Support Helicopter Operations for Ecological Restoration in Gwaii Haanas, BC", is extended from September 07, 2016 until September 13, 2016.

**1. Question**

Parks Canada is requesting access to the barge and tug for loading two (2) weeks prior, what is to be stored on the tug?

**Answer:**

Rat bait stations (~12x12x5" LWH) will be placed on the tug (~2) and barge (~4-6) and armed with a rodenticide bait prior to departing from the point of origin to the project site. This is to prevent rats from being accidentally introduced to the project islands.

The contractor will load the Jet A fuel and pallets of whole kernel corn, as outlined in the RFQ.

**2. Question**

Is there a requirement for a lunch room?

**Answer:**

No.

**3. Question**

Are sides required on the barge?

**Answer:**

No.

**4. Question**

Besides securing the barge on site is there any other requirement for the contractor's personnel?

**Answer:**

1. Loading of Jet A fuel and pallets of whole kernel corn as outlined in the RFQ.
2. Access to the barge (and tug) by Parks Canada Agency representatives to install the bait stations prior to departure.
3. Delivery of barge and anchoring at the project site, and retrieval of barge.

**5. Question**

If the contractor supplies a concrete anchor for securing the barge can it remain on site?

---

**Answer:**

Yes though any anchor left will have to be left equipped with a floating line and highly visible float attached at surface.
