<b>4.0</b>	<b>ELECTRICAL</b>	
.1	Subject: Refer: Instructions:	Electrical Items. Contract Documents Refer to electrical Addendum E-01

**END OF ADDENDUM No. 02**

1.1 QUESTIONS AND REVISIONS

.1 Floor Box Question

*Question: The contract documents call for the power-data floor boxes to be Hubbell System ONE, which are typically utilized for concrete floors. Would the Hubbell CONNEXION Modular wiring systems be preferred for installation in the Raised Access Floor.*

WEC Answer: The Hubbell Connexion Modular floor boxes and systems or equal from other manufacturers are acceptable and to be used instead of the System One. Floor boxes are to be complete with the number of receptacles and data outlets as noted on the plans.

.2 Panel Feeder Question

*Question: The required voltage for the new electrical panel is not available in the basement electrical room. Rather than route power from the penthouse and core down to the 1st floor to the new main floor electrical panel, is providing a transformer in the basement electrical room to step down the power acceptable?*

WEC Answer: Yes, supply and install a new 75kVA 600/208V transformer in the electrical room to power new panel 1F. Supply and install a 90A-3P breaker in the 600V panel in the electrical room to feed the transformer with #3AWG Cu feeders. Use 4#3/0AWG Cu feeders + GND to feed panel 1F.

END OF ADDENDUM

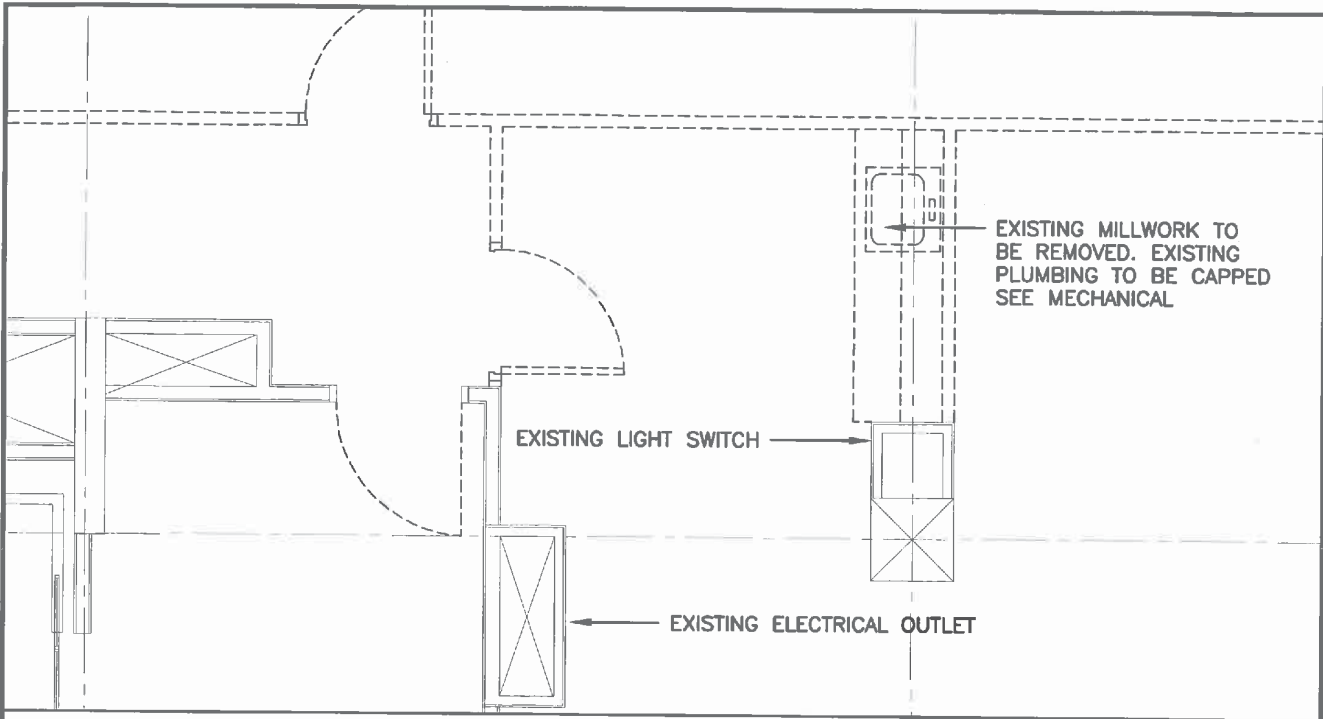

**1.1 QUESTIONS AND REVISIONS**

**.1 Sprinkler Head Changes**

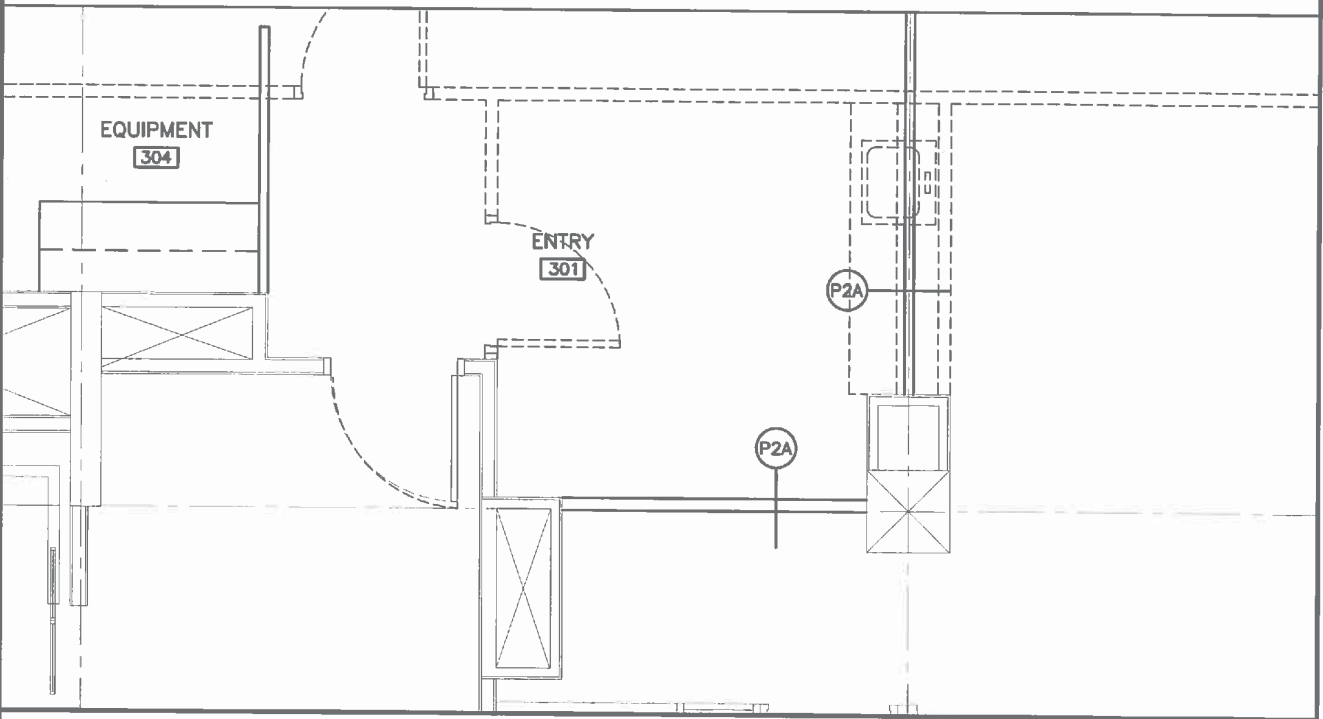

*Question: will engineered drawings / hydraulic calculations be required for changes to the sprinkler head locations?*

WEC Answer: Sprinkler head locations are to be changed as shown on our sealed drawing set. No additional engineered drawings or hydraulic calculations need be submitted. Record drawings will be required after construction as detailed in specification section 21 05 01 1.10.2.
