The purpose of this amendment is to do the following:

Q1. Could you please confirm, as mentioned at the site visit, that the lead /bullet fragments from behind the bullet trap are being cleaned up by others prior to the project starting.

A1. The regular trap maintenance/cleaning will be completed September 10/2016. The range will be in use after it is cleaned and there for will have bullet fragments in the trap and require cleaning during the abatement process.
