Solicitation Amendment 002 is issued to:

Answer to question 1 to 3 and amend the solicitation documents when needed:

Question 1: There is **NO** official MOPI standard testing procedure for the .338 LM cartridge as required below. How can we (or anybody else) conform to this requirement?

Answer 1: Reference SOW Appendix 1 APS-0049. This requirement will not be removed. It is known that the NATO cartridge requirements cannot be met. However, in order to complete the safety assessment of the cartridge offered, the performance and safety-critical test procedures specified in this requirement must be completed. **Therefore, amend APS-0049 Requirement and Means of Compliance to read as follows:**

APS-049	In order to meet the Safe Functioning, Strength of Design and Critical Examination requirements of STANAG 4608 Ed. 1, Ammunition Below 12.7 mm Calibre – Design Safety Requirements and Safety and Suitability for Service (S3), the ammunition shall comply with the following tests:	Mandatory	The bidder shall provide technical documentation or test data to demonstrate that these safety test requirements have been met.

Question 2: How can we provide Test Data taken from “government” PGW C14 weapons which don’t have an official CIP spec’d. chamber as required below ? We do not own a Timberwolf or any other PGW rifle.

Answer 2: Reference SOW Appendix 1 APS-0019. This requirement will not be removed. It is understood that not all bidders have access to the C14 or C14A1 weapons and therefore unable to provide data to prove compatibility. **Therefore, amend APS-0019 requirement to read as follows:**

Question 3: We normally don't provide any PRODAS – Data to anybody, classified and proprietary information. Is it possible to remove this requirement?

Answer 3: Reference DID-AMMO-09 Section 10.2.1.5., it is not mandatory for the bidders to submit this information after contract award.

All the other terms and conditions of the contract remain unchanged
