The Contractor will be required to fulfill the role of a Physician, as detailed in Annex "A" Statement of Work.

There are security requirements associated with this requirement. For additional information, consult Part 6 - Security, Financial and Other Requirements, and Part 7 - Resulting Contract Clauses. For more information on personnel and organization security screening or security clauses, bidders should refer to the <u>Industrial Security Program (ISP)</u> of Public Works and Government Services Canada (http://ssi-iss.tpsgc-pwgsc.gc.ca/index-eng.html) website.

For services requirements, Bidders must provide the required information as detailed in article 5.1.3.1 of Part 5 of *the bid solicitation*, in order to comply with Treasury Board policies and directives on contracts awarded to former public servants.

The Federal Contractors Program (FCP) for employment equity applies to this procurement; see Part 5 – Certifications and Additional Information, Part 7 - Resulting Contract Clauses and the annex titled <u>Federal</u> <u>Contractors Program for Employment Equity - Certification</u>.

1.3 Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within fifteen (15) working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

1.4 Procurement Ombudsman

The Office of the Procurement Ombudsman (OPO) was established by the Government of Canada to provide an independent avenue for suppliers to raise complaints regarding the award of contracts under \$25,000 for goods and under \$100,000 for services. You have the option of raising issues or concerns regarding the solicitation, or the award resulting from it, with the OPO by contacting them by telephone at 1-866-734-5169 or by e-mail at <u>boa-opo@boa-opo.gc.ca</u>. You can also obtain more information on the OPO services available to you at their website at <u>www.opo-boa.gc.ca</u>.

PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (https://buyandsell.gc.ca/policy-andguidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

Revision to Departmental Name: As this solicitation is issued by RCMP, any reference to Public Works and Government Services Canada or PWGSC or its Minister contained in any term, condition or clause of this solicitation, including any individual SACC clauses incorporated by reference, will be interpreted as reference to RCMP or its Minister.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2016-04-04) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

Subsection 5.4 of 2003, Standard Instructions - Goods or Services - Competitive Requirements, is amended as follows:

Delete: sixty (60) days **Insert:** one hundred and eighty (180) days

2.2 Submission of Bids

Bids must be submitted only to the Royal Canadian Mounted Police (RCMP) by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile to RCMP will not be accepted.

The Bidder's name and return address, the solicitation number and the solicitation closing date and time should be clearly visible on the envelope or parcel containing the proposal. Proposals submitted in response to this RFP will not be returned.

2.3 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than fifteen (15) business days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary

nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Quebec.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

2.5 Promotion of Direct Deposit Initiative

The following information is not related to the solicitation process:

An initiative within the Government of Canada called the Cheque Standardization Project has been established whereby eventually for all payments, cheque stubs will no longer be printed and, with few exceptions, will be processed via direct deposit. This option is only available when payment is made in Canadian dollars for deposit into a Canadian bank account. In an attempt to be proactive, RCMP Corporate Accounting is promoting the registration of RCMP suppliers for the upcoming change in the payment process.

If you are the successful bidder on this or any other RCMP requirement, you are encouraged to register with the RCMP for direct deposit. Please contact RCMP Corporate Accounting by email to receive a form entitled *Recipient Electronic Payment Registration Request* along with instructions for completion of the form.

Should you have any questions regarding the Cheque Standardization Project or if you want to register, please contact the following email: <u>corporate_accounting@rcmp-grc.gc.ca</u>

PART 3 - BID PREPARATION INSTRUCTIONS

3.1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (3 hard copies)

Section II: Financial Bid (1 hard copy)

Section III: Certifications (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

(a) use 8.5 x 11 inch (216 mm x 279 mm) paper;

(b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process Policy on Green Procurement (http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html). To assist Canada in reaching its objectives, bidders should:

1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and

2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability and describe their approach for carrying out the work in a thorough, concise and clear manner.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Pricing Schedule (Basis of Payment) detailed in Annex "B". The total amount of Goods and Services Tax or Harmonized Sales Tax must be shown separately, if applicable.

3.1.1 Exchange Rate Fluctuation

The requirement does not provide for exchange rate fluctuation protection. Any request for exchange rate fluctuation protection will not be considered and will render the bid non-responsive.

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

4.1.1 Technical Evaluation

Evaluation – General:

- 1. Listing experience without providing any supporting data to describe where, when, and how such experience was obtained will result in the experience not being included for evaluation purposes.
- 2. For the purpose of personnel qualifications, experience gained during formal education shall not be considered work experience. Co-op terms are considered work experience provided that they are related to the required services.
- 3. Resumes of proposed resources should be included with the bid. For each resume submitted, the Bidder must ensure that:

a. the proposed individual's name applicable to a Category is clearly indicated; and

b. the resume clearly demonstrates "where", "when" and "how" the stated

qualifications/experience of the individual, in relation to the requirements of the Statement of Work for that Category, were acquired.

c. For evaluation purposes in the interpretation of resumes,

- i. "where" means the name of the employer as well as the position/title held by the individual;
- ii. "when" means the start date and end date (e.g. from January 2010 to March 2012) of the period during which the individual acquired the qualification/experience; and
- iii. "how" means a clear description of the activities performed and the responsibilities assigned to the individual under this position and during this period.

d. Bidders are advised that the month(s) of experience listed for a project whose timeframe overlaps that of another referenced project, will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.

e. Where there is a requirement have experience within a certain number of years, the timeframe will be taken to START that number of years before the RFP PUBLICATION DATE, and will be allowed to encompass the additional time up to the final RFP closing date. For example, if the requirement is to have experience "...within the last five years..." and the publication date of the RFP is 01 April 2012, with a closing date of 31 May 2012, then the five year period will START

at 01 April 2007 and continue to the final RFP closing date of 31 May 2012, thus being slightly longer than five years.

4.1.2 Mandatory Requirements

- 1. At bid closing time, the Bidder must comply with the Mandatory Requirements, including those stated in this section and tables for the Bidder and each resource, and provide the necessary documentation to support compliance.
- 2. Any proposal which fails to meet the following Mandatory Requirements will be deemed nonresponsive and will not be given further consideration. Each requirement should be addressed separately.
- 3. Only one (1) ressource is permitted per Bid. If Bidder proposes multiple ressources the bidder must submit multiple bids.
- 4. The Bidder shall demonstrate the following experience for each proposed resource:

4.1.3. Point Rated Evaluation Criteria:

- 1. Each Technical Proposal which meets all the Mandatory Requirements will be evaluated and scored in accordance with the Point Rated evaluation criteria described below.
- 2. In addressing the Point Rated evaluation criteria, the Bidder should supplement the information supplied in response to the mandatory requirements with details outlining the depth and extent of the relevant experience, qualifications and specialized expertise of the proposed resources. All claims with regard to resource experience, qualifications, or expertise must be substantiated through the provision of detailed descriptions of how and where the claimed experience, qualifications or expertise were gained.
- 3. Unsubstantiated claims of experience, qualifications or expertise will not be considered by the evaluation team during the point rated evaluation.
- 4. The Bidder should indicate the location of supporting information in the proposed resource's resume, to substantiate relevant experience for each Point Rated evaluation criteria.
- 5. A pass mark of 70 % (seventy percent) applies to the sum of the scores for all proposed resources. Proposals for which evaluated scores fail to achieve these pass marks, as a minimum, will be deemed nonresponsive.

4.1.4 Financial Evaluation

Refer to the Financial Proposal (Basis of Payment) Presentation Sheet attached as Annex B to the RFP.

4.2 Basis of Selection

- **4.2.1** To be declared responsive, a bid must:
 - a. comply with all the requirements of the bid solicitation; and
 - b. meet all mandatory criteria; and
 - c. obtain the required minimum of 28 points (70%) overall for the technical evaluation criteria which are subject to point rating. The rating is performed on a scale of 40 points. (28/40)

Bids not meeting (a) or (b) or (c) will be declared non-responsive.

The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 70 % for the technical merit and 30 % for the price.

To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 70 %.

To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 30 %.

For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.

Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 70/30 ratio of technical merit and price, respectively. The total available points equals 40 and the lowest evaluated price is \$50,000 (50).

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and associated information to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default in carrying out any of its obligations under the Contract, if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. 5.1. Certifications Precedent to Contract Award and Additional Information

If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. 5.1.3.1 Former Public Servant Certification

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds.
