

1. General
- .1 Use new material and equipment unless otherwise specified.
  - .2 Submit following information for any or all materials and products proposed for supply within 7 days of request by the Departmental Representative.
    - .1 Name and address of supplier.
  - .3 Provide material and equipment of specified design and quality.
2. Delivery and Storage
- .1 Prevent damage, alteration and soiling of material and equipment during delivery, handling and storage. Immediately remove rejected material and equipment from site.
  - .2 Store material and equipment in accordance with supplier's instructions.
3. Conformance
- .1 When material or equipment is specified by standard or performance specifications, upon request of the Departmental Representative, obtain from supplier an independent testing laboratory report, stating that material or equipment meets or exceeds specified requirements.
4. Substitution
- .1 Proposals for substitution may be submitted only after award of Contract. Such requests must include statements of respective costs of items originally specified and proposed substitutions.
  - .2 Proposals will be considered by the Departmental Representative if:
    - .1 Products selected by tenderer from those specified, are not available, or

.2 Delivery date of products from those specified would unduly delay completion of Contract, or

.3 Alternative products to those specified, which are brought to attention of, and considered by the Departmental Representative as equivalent to those specified and will result in a credit to Contract amount.

.3 Should proposed substitution be accepted either in part or in whole, assume full responsibility and costs when substitution affects other work on project. Pay for design or drawing changes required as result of substitution.

.4 Amounts of all credits arising from approval of substitutions will be determined by the Departmental Representative and Contract price will be reduced accordingly. Not substitutions will be permitted without prior written approval of the Departmental Representative.

.5 Owner reserves the right of acceptance or rejection of substitution of materials.

#### 5. Construction Equipment and Plant

.1 On request, prove to the satisfaction of the Departmental Representative that the construction equipment and plant are adequate to manufacture, transport, place and finish work to quality and production rates specified. If inadequate, replace or provide additional equipment or plant as directed.

.2 Maintain construction equipment and plant in good operating order.
