Question 1: For the pricing purposes, please provide total area of heritage stone masonry required laser cleaning, so all contractors will price the same scope of work.

Response 1: As specified in Section 04 03 06, article 3.04.15.1 'General laser cleaning of all stone surfaces (...) all facets including recesses'. Use the length and height of the wall, identified in the tender drawings, to calculate the surface area of the masonry.

Question 2: Do we have to provide any masonry restoration work in this project, such as dismantle and rebuild stone masonry, cut out existing mortar joints and repointing, remove existing light standard, etc? If we have to do it, please provide the quantity for each type of repairs.

Response 2: Schedule of exploratory openings (masonry restoration work) as specified in Section 04 05 00, article 3.09, and related sections. Drawing A-102 will be revised, and issued in an addenda, to identify location of openings (and test pits) for quantification; for quantity of light standards see electrical drawing ESK-1.
