PART 1 - GENERAL INFORMATION

1.1 Introduction

The bid solicitation is divided into six (6) parts plus attachments and annexes, as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Bidder Instructions: provides the instructions, clauses and conditions applicable to the bid solicitation;
- Part 3 Bid Preparation Instructions: provides bidders with instructions on how to prepare their bid;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria that must be addressed in the bid, and the basis of selection;
- Part 5 Certifications: includes the certifications to be provided;
- Part 6 Resulting Contract Clauses: includes the clauses and conditions that will apply to any resulting contract.

The Annexes include the Statement of Work, the Basis of Payment, and any other annexes.

1.2 Security Requirements

There is a security requirement associated with the requirement. For additional information, consult Part 6 – Resulting Contract Clauses.

For additional information on security requirements, Bidders should refer to the Industrial Security Program (ISP) of Public Works and Government Services Canada website (<http://ssi-iss.tpsgc.pwgsc.gc.ca/index-eng.html>)

1.3 Requirement

The Government of Canada is in the process of reviewing technologies for protection against kinetic energy threats. The Government of Canada will be assessing the performance and features of various categories of potential Add on Armour solutions. The intent is for the provision of the Add on Armour (AOA) Panels for testing and option analysis purposes as a result to gain a better understanding of the current state of the existing technology.

A minimum of three (3) Add on Armour panels will be purchased on award of contract that meet or exceed the Mandatory Technical Requirements, as identified in Annex "A" – Statement of Work. Additional Add on Armour panels (maximum of ten (10) in total) that meet or exceed the Mandatory Technical Requirements may be purchased as and when required.

Canada requires a variety of categories of potential AOA solutions and therefore as an option to purchase, Canada may procure (maximum of ten) Add on Armour panels that meet the Optional Technical Requirements, as and when required, as identified in Annex "A" – Statement of Work.

Suppliers are invited to submit more than one AOA panel solution provided that they meet the minimum technical required specifications, as such; there is no constraint on the amount of submissions from a single contractor.

Multiple contracts may be awarded as a result of this RFP.

1.4 Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within five (5) working days from receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

1.5 Trade Agreements

The requirement is subject to the provisions of the World Trade Organization Agreement on Government Procurement (WTO-AGP), the North American Free Trade Agreement (NAFTA), and the Agreement on Internal Trade (AIT).

PART 2 - BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2016-04-04) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

2.1.1 SACC Manual Clauses

A9062C	2011/05/16	Canadian Forces Site Regulations
B1000T	2014/06/26	Condition of Material – Bid
B7500C	2006/06/16	Excess Goods
C3011T	2013/11/06	Exchange Rate Fluctuation
D5545C	2010/08/16	ISO 9001:2008 Quality Management Systems - Requirements (QAC C)
D6010C	2007/11/30	Palletization

2.2 Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

Due to the nature of the bid solicitation, bids transmitted by facsimile to PWGSC will not be accepted.

2.3 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than **five (5) calendar days** before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit

the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

Canada requests that Bidders provide their bid in separately bound sections as follows:

- Section I: Technical Bid (3 hard copies)
- Section II: Certifications (1 hard copy)
- Section III: Delivery Information (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that Bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, Bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements.

Bidders must complete and submit Appendix 1 to Part 4 – Technical Requirements.

Section II: Certifications

Bidders must submit the certifications and additional information required under Part 5.

Section III: Delivery Information

Delivery is requested within sixty (60) days of date of contract, however bidders are requested to specify their proposed best effort delivery time in the Line Item Detail "Best Effort Delivery Time" column provided, as per Annex "C" – Delivery Requirements.

Proposals whose deliveries exceed one hundred eighty (180) days, after date of contract, will not be accepted.

Proposals which do not fulfill the Line Item Detail "Best Effort Delivery Time" column provided in Annex "C" will be held to the sixty (60) days delivery as of contract award.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the "technical" evaluation criteria.
- b) An evaluation team composed of representatives of Canada will evaluate the bids.
- c) Bidders are required to comply with the drawing at Appendix 1 to Part 4 – Technical Requirements.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria

The AOA panels must meet the following technical characteristics, when affixed to the target system as described in Annex "A" 3.8.1:

- a. Meet or exceed STANAG 4569 Level K4 when tested at an obliquity of 0°.
- b. Maximum unintegrated areal density of 65kg/m² (AOA only).
- c. Maximum AOA thickness of 55mm (AOA only).
- d. Minimum Technology Readiness Level 7 (TRL 7).

4.1.1.2 "Optional" Point Rated Technical Criteria

To be considered for an optional procurement AOA panels must, when affixed to the target system as described in Annex "A" 3.8.1, meet minimum STANAG 4569 level K4 to be considered and,

- a. Meet or exceed STANAG 4569 Level K6 at an obliquity of 60°, or
- b. Meet STANAG 4569 Level K4 plus defeat 14.5x mm BS41 at the same testing requirements as level K4 when tested at an obliquity of 0°, or
- c. Meet STANAG 4569 Level K4 plus defeat 12.7mm M903 at a maximum range of 200m using the multi-hit pattern for level K4 and tested at an obliquity of 0°, or
- d. Areal density of: 65kg/m² - 110 kg/m², or
- e. Thickness as follows (including stand-off): 25mm – 115mm.

4.1.1.3 Mounting Criteria

The AOA panels must be in accordance with Annex "A" - 3.8 Mounting Requirements.

- a. It may be possible to accommodate alternate mounting methods if the Bidder finds it impossible to mount their AOA panels using the required method. Proposals for alternate mounting solutions must be submitted within five (5) calendar days to the Contracting Authority prior to bid closing. Canada reserves the right to accept or reject alternative mounting methods.
- b. Bidders must provide any specific mounting instructions (i.e. torque specifications) and/or any specialized mounting hardware, as required with mounting the AOA panels.

4.1.2 Financial Evaluation

This is a firm fixed requirement and successful respondents will be paid in Canadian dollars, Delivered Duty Paid (DDP), in accordance with the Annex "B" – Pricing Schedule.

4.2 Basis of Selection

To be considered responsive, a bid must meet all of the following mandatory requirements of this solicitation:

- a. Mandatory and/or Optional Technical Requirements as per Annex "A" Statement of Work.
- b. All other clauses, terms and conditions stipulated in this RFP

Bids not meeting all of the mandatory requirements will be given no further consideration.

The responsive bid(s) that meet the Mandatory Technical Requirements, identified in Annex A – Statement of Work, will result in award of a contract for a minimum of three (3) AOA panels and a maximum of ten (10) AOA Panels, on an as required basis.

The responsive bid(s) that meet the Optional Technical Requirements, identified in Annex A – Statement of Work, may result in award of a contract for a maximum of ten (10) AOA Panels, on an as required basis.

Bids that score the highest points in the Optional Technical Requirements will be considered first for an optional purchase, as stipulated at Appendix 1 to Part 4.

APPENDIX 1 TO PART 4

TECHNICAL REQUIREMENTS

AOA panels will be purchased that meet the following Mandatory Technical Requirements, as specified in Annex "A".

MANDATORY TECHNICAL REQUIREMENTS			
	Requirement Specifications	Description	MET (Yes/No)
M1	Meet or exceed STANAG 4569 Level K4 when tested at an obliquity of 0°.		Yes <input type="checkbox"/> No <input type="checkbox"/>
M2	Maximum unintegrated areal density of 65kg/m ²	Actual: _____ kg/m ²	Yes <input type="checkbox"/> No <input type="checkbox"/>
M3	Maximum AOA thickness of 55mm.	Actual: _____ mm	Yes <input type="checkbox"/> No <input type="checkbox"/>
M4	Min. Technology Readiness Level 7 (TRL 7).	Actual TRL Level: _____	Yes <input type="checkbox"/> No <input type="checkbox"/>

AOA panels may also be purchased as an optional purchase that meet the following Optional Technical Requirements, as specified in Annex "A" and based on the point rating system described below:

OPTIONAL TECHNICAL REQUIREMENTS			
	Mandatory	Description	MET (Yes/No)
TM1	Will achieve minimum of STANAG 4569 level K4		Yes <input type="checkbox"/> No <input type="checkbox"/>
	Point Rated Specifications	Points	Select ALL that apply of: a, b, and c
a.	Meets or exceeds STANAG 4569 Level K6 at an maximum obliquity of 60°	3	<input type="checkbox"/>
b.	Defeats 14.5x114mm BS41 at the same testing requirements as level K4 at an obliquity of 0°.	4	<input type="checkbox"/>
c.	Defeats 12.7mm M903 at 200m using the multi-hit pattern as level K4 and tested at an obliquity of 0°	2	<input type="checkbox"/>
	Areal density as follows:		Select 1 of: d, e, f, or g
d.	Areal density of 85 to 110 kg/m ²	0	<input type="checkbox"/>
e.	Areal density of 75 to 84.99 kg/m ²	1	<input type="checkbox"/>
f.	Areal density of 65 to 74.99 kg/m ²	2	<input type="checkbox"/>
g.	Areal density of < 64.99 kg/m ²	4	<input type="checkbox"/>
	Thickness as follows (including stand-off):		Select 1 of: h, i, j, or k
h.	Thickness of 75 -115mm	0	<input type="checkbox"/>
i.	Thickness of 50 to 74.99mm	1	<input type="checkbox"/>
j.	Thickness of 25 - 49.99mm	2	<input type="checkbox"/>
k.	Thickness of < 25mm	4	<input type="checkbox"/>

Total Points: _____

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract.

5.1 Certifications Required with the Bid

Bidders must submit the following duly completed certifications as part of their bid.

5.1.1 Integrity Provisions

In accordance with the *Ineligibility and Suspension Policy* (<http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html>), the Bidder must provide with its bid the required documentation, as applicable, to be given further consideration in the procurement process.

5.2 Certifications Precedent to Contract Award and Additional Information

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

5.3 Technical Compliance Certification

The manufacture of the Add on Armour panels must be in strict accordance with the technical requirements (3.2) stipulated in ANNEX "A" – STATEMENT OF WORK. The Bidder confirms that it has received, read and will fully comply with the mandatory and/or optional technical requirements.

The Bidder acknowledges that Canada relies upon such representation and warranty to evaluate bids and to enter into any contract resulting from this Offer. Such representation and warranty may be verified in such manner as Canada may reasonably require.

Should verification by Canada disclose a breach of such covenant, Canada shall have the right to treat any contract resulting from this Bid as being in default.

The bidder must confirm compliance and to execute this representation and warrantee with all the mandatory and/or optional technical requirements of ANNEX "A" – STATEMENT OF WORK, by signature in the section provided at ANNEX "E" – TECHNICAL COMPLIANCE CERTIFICATION.

Failure to comply with this certification and meet this requirement will render the bid non-responsive.

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

6.1 Security Requirements

The following security requirements (SRCL and related clauses provided by ISP) apply and form part of the Contract, as per Annex "D" Security Requirements.

The Contractor/Offeree must, at all times during the performance of the Contract, hold a valid Designated Organization Screening (DOS), with approved Document Safeguarding at the level of PROTECTED B, issued by the Canadian Industrial Security Directorate (CISD), Public Works and Government Services Canada (PWGSC).

The Contractor/Offeree personnel requiring access to PROTECTED information, assets or sensitive work site(s) must EACH hold a valid RELIABILITY STATUS, granted or approved by CISD/PWGSC.

The Contractor/Offeree personnel requiring access to NATO UNCLASSIFIED information or assets do not require to hold a personnel security clearance; however, the Contractor must ensure that the NATO Unclassified information is not releasable to third parties and that the "need to know" principle is applied to personnel accessing this information.

The Contractor personnel requiring access to FOREIGN RESTRICTED information or assets must be citizens NATO Partnership for Peace, Australia and EACH hold a valid RELIABILITY STATUS or its equivalent, granted or approved by the appropriate delegated NATO Security Authority.

Processing of PROTECTED materiel electronically at the Contractor/Offeree's site is NOT permitted under this Contract/Standing Offer.

Subcontracts which contain security requirements are NOT to be awarded without the prior written permission of CISD/PWGSC.

The Contractor/Offeree must comply with the provisions of the:

- (a) Security Requirements Check List and security guide (attached at Annex D).
- (b) Industrial Security Manual (Latest Edition).

6.2 Statement of Work

The Contractor must perform the Work in accordance with Annex "A", Statement of Work.

6.3 Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

6.3.1 General Conditions

2010A (2016-04-04), General Conditions - Goods (Medium Complexity), apply to and form part of the Contract.

Solicitation No. - N° de l'invitation
W8486-173327
Client Ref. No. - N° de réf. du client
W8486-173327

Amd. No. - N° de la modif.
File No. - N° du dossier

Buyer ID - Id de l'acheteur
311bl
CCC No./N° CCC - FMS No./N° VME

6.4 Term of Contract

6.4.1 Period of the Contract

The period of the Contract is from date of Contract to 31 December 2017 inclusive.

6.5 Delivery

All the deliverables will be in accordance with Annex "C" - Deliverables.

6.5.1 Delivery Location

Goods must be consigned to the destination specified in the Contract and delivered:

Incoterms 2000 "DDP Delivered Duty Paid", destination(s) as specified below:

Department of National Defence/ METC
Édifice 239
2459, route de la Bravoure
Quebec QC G3J 1X5
Attn: (To be added at date of contract award)
Telephone: _____

The Contractor or its carrier must arrange delivery appointments by contacting the Depot Traffic Section at the appropriate location shown below. The consignee may refuse shipments when prior arrangements have not been made

6.5.2 Preparation for Delivery

Preparation for delivery for all item(s) must be in accordance with the latest issue of the Canadian Forces packaging specification D-LM-008-036/SF000.

6.5.3 Delivered Duty Paid – DDP

Delivered duty paid (DDP) is a transaction where the seller pays for the total costs associated with transporting goods and is fully responsible for the goods until they are received and transferred to the buyer. This includes paying for shipping costs, export and import duties, insurance and any other expenses incurred during shipping of the goods. DDP is a type of delivery agreement that puts all of the risks and charges with the seller of the goods until delivery is made in the buyer's country at an agreed-upon location.

6.5.4 Inspection and Acceptance

The "Technical" Authority is the Inspection Authority. All reports, deliverable items, documents, goods and all services rendered under the Contract are subject to inspection by the Inspection Authority or representative. Should any report, document, good or service not be in accordance with the requirements of the Statement of Work and to the satisfaction of the Inspection Authority, as submitted, the Inspection Authority will have the right to reject it or require its correction at the sole expense of the Contractor before recommending payment

6.6 Authorities

6.6.1 Contracting Authority

The Contracting Authority for the Contract is:

Solicitation No. - N° de l'invitation
W8486-173327
Client Ref. No. - N° de réf. du client
W8486-173327

Amd. No. - N° de la modif.
File No. - N° du dossier

Buyer ID - Id de l'acheteur
311bl
CCC No./N° CCC - FMS No./N° VME

Name: Lorraine Godin

Title: Supply Officer

Organization: Public Works and Government Services Canada - Acquisitions Branch (DMPS)

Address: Place du Portage, Phase III, 6C1
11 Laurier Street
Gatineau, Quebec K1A 0S5

Telephone: 819-420-0812

E-mail address: Lorraine.Godin@tpsgc-pwgsc.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

6.6.2 Technical Authority

The Technical Authority for the Contract is:

Name: (To be added at date of contract award)

Title: _____

Organization: _____

Address: _____

Telephone: _____

E-mail address: _____

The Technical Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Technical Authority; however the Technical Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

6.6.3 Procurement Authority

Name: (To be added at date of contract award)

Title: _____

Organization: _____

Address: _____

Telephone: _____

Facsimile: _____

E-mail address: _____

The Procurement Authority is the representative of the department or agency for whom the Work is being carried out under the Contract. The Procurement Authority is responsible for the implementation of tools and processes required for the administration of the Contract. The Contractor may discuss administrative matters identified in the Contract with the Procurement Authority however the Procurement Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of Work can only be made through a contract amendment issued by the Contracting Authority.

6.7 Payment

6.7.1 Basis of Payment

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm unit price(s), as specified in Annex "B".

6.7.2 Limitation of Price

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work, unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work.

6.7.3 Single Payment

Canada will pay the Contractor upon completion and delivery of the Work in accordance with the payment provisions of the Contract if:

- a. an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- b. all such documents have been verified by Canada;
- c. the Work delivered has been accepted by Canada.

6.7.4 Exchange Rate Fluctuation

The requirement does not offer exchange rate fluctuation risk mitigation. Requests for exchange rate fluctuation risk mitigation will not be considered. All bids including such provision will render the bid non-responsive.

6.8 Invoicing Instructions

6.8.1 The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

6.8.2 Invoices must be distributed as follows:

- a. One (1) copy must be forwarded to:

Department of Public Works and Government Services
Acquisitions Branch
Defence & Major Projects Sector
Place du Portage, Phase III, 6C1
Gatineau, Quebec K1A 0S5

Attention: Lorraine Godin

- b. The original and one (1) copy must be forwarded to the following address for certification and payment.

Department of National Defence
NDHQ DGLEPM
101 Colonel By Dr.
Ottawa, Ontario, Canada
K1A 0K2

Attention: Nicolas Mercier (DLP 4-4-1-3)

6.9 Certifications and Additional Information

6.9.1 Compliance

Unless specified otherwise, the continuous compliance with the certifications provided by the Contractor in its bid or precedent to contract award, and the ongoing cooperation in providing additional information are conditions of the Contract and failure to comply will constitute the Contractor in default. Certifications are subject to verification by Canada during the entire period of the Contract.

6.9.2 Technical Compliance Certification

The Contractor confirms compliance with all the mandatory and/or optional technical requirements of ANNEX "A" – STATEMENT OF WORK, by signature in the section provided at ANNEX "E" – TECHNICAL COMPLIANCE CERTIFICATION.

6.10 Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

6.11 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (b) 2010A (2016-04-04), General Conditions - Goods (Medium Complexity)
- (c) Annex "A", Statement of Work and related appendices;
- (d) Annex "B", Pricing Schedule;
- (e) Annex "C", Delivery Requirements;
- (f) Annex "D", Security Requirements Check List;
- (g) the Contractor's bid dated _____.

6.12 Defence Contract

The Contract is a defence contract within the meaning of the Defence Production Act, R.S.C. 1985, c. D-1, and must be governed accordingly.

Title to the Work or to any materials, parts, work-in-process or finished work must belong to Canada free and clear of all claims, liens, attachments, charges or encumbrances. Canada is entitled, at any time, to remove, sell or dispose of the Work or any part of the Work in accordance with section 20 of the Defence Production Act.

ANNEX "A"

STATEMENT OF WORK

1.0 SCOPE

1.1 Objective

- 1.1.1 The objective of this Statement of Work (SOW) is for the provision Add on Armour (AOA) Panels for testing purposes and options analysis. The testing and analysis is to gain a better understanding of the current state of the existing technology and define future requirements.

1.2 Background

- 1.2.1 The Government of Canada is in the process of reviewing technologies for protection against kinetic energy threats. The Government of Canada will be assessing the performance and features of various categories of potential ballistic protection solutions. The intent is to obtain feedback from industry and from testing on the options to meet Canadian Army future needs and associated protection capability.

1.3 Terminology

- 1.3.1 STANAG 4569 – Standard Agreement 4569, Procedures for Evaluating the Protection Level of Armoured Vehicles
- 1.3.2 AEP-55 – Allied Engineering Publication 55
- 1.3.3 KE – Kinetic Energy
- 1.3.4 AOA – Add on Armour
- 1.3.5 OEM – Original Equipment Manufacturer
- 1.3.6 TRL 7 – Technology Readiness Level, represents a system that has demonstrated an actual system prototype in an operational environment.

2.0 APPLICABLE DOCUMENTS

- 2.1 STANAG 4569, AEP-55, Volume 1. This document provides the basis and background of the protection levels required by the Government of Canada. This document can be made available upon request.

3.0 REQUIREMENTS

3.1 General

- 3.1.1 Add on Armour panels will be purchased, as and when required basis, that meet the Mandatory Technical Requirements identified below in paragraph 3.2.2. Any associated contracts resulting of this requirement will be for a minimum of three (3) AOA panels and with a maximum of ten (10) panels for each compliant submission.
- 3.1.2 AOA panels that meet the Optional Technical Characteristics identified below in paragraph 3.2.3, may also be considered as an optional purchase, as and when required basis. Any associated

contracts resulting of this optional requirement will be for a maximum of ten (10) panels per compliant submission.

3.2 Technical Requirements

3.2.1 The contractor must provide add on armour panels built in accordance with the drawing and specifications as per Appendix 1 of this SOW.

3.2.2 Mandatory Technical Requirements

3.2.2.1 The AOA panels must meet the following technical characteristics when affixed to the target system described in 3.5.1:

- a. Meet or exceed STANAG 4569 Level K4 when tested at an obliquity of 0°.
- b. Maximum unintegrated areal density of 65kg/m² (AOA only).
- c. Maximum AOA thickness of 55mm (AOA only).
- d. Minimum Technology Readiness Level 7 (TRL 7).

3.2.3 Optional Technical Requirements

3.2.3.1 As an option to purchase, Canada may procure additional Add on Armour panels that meet the following Optional Technical Requirements, when affixed to the target system described in 3.5.1:

3.2.3.2 Must meet minimum STANAG 4569 level K4 to be considered, and

- a) Meet or exceed STANAG 4569 Level K6 at an obliquity of 60°, or
- b) Meet STANAG 4569 Level K4 plus defeat 14.5x mm BS41 at the same testing, requirements as level K4 when tested at an obliquity of 0°, or
- c) Meet STANAG 4569 Level K4 plus defeat 12.7mm M903 at a maximum range of 200m using the multi-hit pattern for level K4 and tested at an obliquity of 0°, or
- d) Areal density of: 65kg/m² - 110 kg/m², or
- e) Thickness as follows (including stand-off): 25mm – 115mm.

3.3 Testing and Integration

3.3.1 The following procedures will be followed during the test:

- a. Testing will be in accordance with STANAG 4569 and AEP 55 volume 1;
- b. Canada reserves the right to test AOA panels anywhere within the allowable tolerances contained in the STANAG (i.e. spacing requirements between the first and second shots for level K4 is 50-100mm, companies should expect testing to occur at the lower shot spacing requirements).
- c. Additional testing, not defined in the STANAG, may be conducted to characterize the performance of AOA against threats not defined in STANAG 4569.
- d. Test panels will be mounted to a 7.3mm MIL-A-46100 steel plate which is backed with an aramid based spall liner.
- e. For ease of testing, test panels must be built as per Annex A (see para 3.9).

3.3.2 The AOA panels will not be returned and will remain sole property of Canada.

3.3.3 Test results and data will remain sole property of Canada. Test results and data for specific panels that were provided by the panel specific contractor will be shared (with this contractor only), at no cost, and upon request.

- 3.3.4 Test results cannot be used for marketing purposes or shared with a third party without the written consent of the Government of Canada.
- 3.3.5 Canada reserves the right to share test results with allied governments and/or militaries, however manufacturer, part numbers, and cost will remain confidential.
- 3.3.6 Witnessing the testing of a contractor's own panels will be possible upon request for those who meet the security clearance requirements of the test facility.

3.4 Support Provided by Canada

- 3.4.1 The Government of Canada will provide a target system comprised of 7.3mm MIL-A-46100 steel as well as the aramid based spall liner to which the AOA panels will be affixed using M12 tapping pads.
- 3.4.2 AOA panels provided by the contractor will be affixed to the target system by Canada at the test facility.

3.5 Deliverables:

- 3.5.1 Add on Armour panels as described above in section: 3.2 Technical Requirements.
- 3.5.2 Must be delivered as described in accordance with this Statement of Work and in good condition to the address supplied within the stated time period.

3.6 Timeframe and Delivery

- 3.6.1 The AOA panels will be delivered in accordance Annex "C" – Delivery Requirements.
- 3.6.2 The contractor must deliver all panels to:

Department of National Defence/ METC
Édifice 239
2459, route de la Bravoure
Quebec QC G3J 1X5

Attn: (To be added at date of contract award)
Telephone: _____

3.7 Contractor Qualifications

- 3.7.1 Contracts will only be awarded to Armour OEMs or their recognized Canadian distributor.
- 3.7.2 Contractors must have provided a composite vehicle add on armour to a national military force within the 10 most recent years.

3.8 Mounting Requirements

- 3.8.1 The AOA panels must be capable of mounting to a steel backing plate and secured using tapping pads in a 4 bolt pattern as per Appendix 1 to Annex "A".

APPENDIX 1 TO ANNEX "A" – STATEMENT OF WORK

AMOURD PANEL LAYOUT (DRAWING)

ANNEX "B"

PRICING SCHEDULE

The following prices are in Canadian dollars, Delivered Duty Paid (DDP).

Mandatory Technical Requirements:

The Contractor(s) that meet the Mandatory Technical Requirements as per the Statement of Work at Annex "A" and its associated appendices and in accordance with the terms and conditions of the contract will be paid the following firm unit price.

MANDATORY TECHNICAL REQUIREMENT			
Contractor	Quantity	Firm Unit Price	Total
_____	_____	\$5,000.00	\$ _____

Any associated contracts resulting of the mandatory technical requirements will be for a minimum of three (3) AOA panels and with a maximum of ten (10) panels for each compliant submission.

Optional Technical Requirements:

As an option to purchase, Canada may procure additional Add on Armour panels, the Contractor(s) that meet the Optional Technical Requirements as per the Statement of Work at Annex "A" and its associated appendices and in accordance with the terms and conditions of the contract will be paid the following firm unit price.

OPTIONAL TECHNICAL REQUIREMENTS				
Contractor	Quantity	Points	Firm Unit Price	Total
_____	_____	0 – 7 Points	\$6,000.00	\$ _____
_____	_____	8 – 12 points	\$7,500.00	\$ _____
_____	_____	13 – 17 points	\$10,000.00	\$ _____

Any associated contracts resulting of this optional requirement will be for a maximum of ten (10) panels per compliant submission.

ANNEX "E"

TECHNICAL COMPLIANCE CERTIFICATION

The manufacture of the Add on Armour panels must be in strict accordance with the technical requirements (3.2) stipulated in **ANNEX "A" – STATEMENT OF WORK**. The Contractor confirms that it has received, read and will fully comply with the mandatory and/or optional technical requirements.

The Contractor acknowledges that Canada relies upon such representation and warranty to evaluate bids and to enter into any contract resulting from this Offer. Such representation and warranty may be verified in such manner as Canada may reasonably require.

Should verification by Canada disclose a breach of such covenant, Canada shall have the right to treat any contract resulting from this requirement as being in default.

The Contractor must confirm compliance and to execute this representation and warranty with all the mandatory and/or optional technical requirements of **ANNEX "A" – STATEMENT OF WORK**, by signature in the section provided at **ANNEX "E" – TECHNICAL COMPLIANCE CERTIFICATION**.

Failure to comply with this certification and meet this requirement will render the contractor as being in default.
