This solicitation amendment 006 is issued to answer questions raised from the industry.

Q1. The RFP does not make reference to any Environmental Site Assessments in the deliverables. Normally phased ESA's and Records of Site Condition would be required for the mixed use and residential developments. Is an ESA to be included at this stage in the project? If yes, can PWGSC clarify the scope (i.e. only Phase One, Phase One and Phase Two, etc.)?

*R1. Information regarding environmental site conditions will be provided upon contract award. If additional level of effort is required for further development of this topic, it will be completed via as and when, as described in section 9.4.2 of the Terms of Reference.*

Q2. The security related scope of work needs to be developed by the client. Besides the section where it says that a security consultant is required on the team, the RFP doesn't mention anything specific about security services and deliverables. Can PWGSC clarify the scope? It would be much preferable to have a contractual document to that effect in order for all bidders to include the same requirements in their proposal.

*R2. The bidder is to provide the service requested and the level of effort will be determined on as and when required basis. (see section 9.4.2 of the Terms of Reference)*

Q3. Regarding the WBS / level of effort – as Senior Personnel CVs are asked for, are we to scope our cost based on a senior rate only, use team rates and show the different levels of personnel's rates (senior, intermediate, junior), or use a blended rate?

*R3. The bidder is responsible for properly demonstrating how they plan on best providing the required services as outlined.*

Q4. Can you confirm a project start date? Can you confirm an award date for this contract?

*R4. Start date and award date cannot be identified until the technical evaluation is completed.*

No other changes apply.
