The objective of this prequalification phase is to evaluate the capability of a company to supply the medical consumables which is described in Annex A. The pre-qualified suppliers will be referred to as the Qualified Respondents in this solicitation process. Only the Qualified Respondents will be invited to bid on any subsequent bid solicitation.

Below are the intended phases of the solicitation process.

Solicitation Process	
Phase 1 - ITQ	Pre-Qualification Phase
Phase 2 - Bid solicitation	Bid Solicitation Phase: Request for Proposal (RFP) will be sent directly by email to the Qualified Respondents from Phase 1.

PWGSC reserves the right to cancel this ITQ at any time.

Any resulting contract will be for a two (2) year period.

Substitute products will not be considered.

It is anticipated that a maximum of three (3) Contracts may result from this Solicitation.

1.3 National Security Exception

The national security exceptions provided for in the trade agreements have been invoked; therefore, this procurement will be excluded from all of the obligations of all the trade agreements.

1.4 ITQ Authority

The ITQ Authority is responsible for the management of the ITQ process. The ITQ Authority is:
