

SEN-013 16/17 – Sheer Panels and Draperies
Questions and Answers – Set 3
September 30, 2016

7. Also for the Side panels: How Wide? (1) panel or (1 ½) panels each?

Answer: (EXAMPLE) the two side panels shall be able to cover the full width of the window at 2.25 fullness. These two side panels will be attached on the side with tie backs. This scenario may vary from time to time depending on the building.
