AMENDMENT #003

Question:

Once a standing offer has been awarded, what are the means/clauses that would allow for any potential price increase(s) during the 5 year contract? I am unable to find anything that explains if they are even possible over the 5 years, and if they are, how are they requested/approved (based on PPI, simple request for increase, or other requirements)

Answer:

The Basis of payment has been modified to reflect that if the Standing Offer period is extended, prices will be established using the Industrial Price Index (IPI), published by Statistics Canada.

Question: On Page 13 of 21 - 1.4 - **1S09001**. We are not ISO 9001 certified. Although we have excellent business practices and quality control procedure in place, we have not been through the ISO9001 certification. We can make application but this obviously won't happen overnight. Our supply chain that supply's us with the components is 1S09001 compliant, since this bid is just for the components would that be helpful?

Answer: ISO 9001 certification is not mandatory, however the bidder must have a quality management system in place that meets all ISO 9001 requirements. If the system in place is not certified, CORCAN reserves the right to audit the system in place to make sure that it meets all requirements of ISO 9001 standards.

Pricing Basis – Excel spreadsheet revised and attached.
