AMENDMENT 002

This amendment is being raised to respond to questions submitted in response to solicitation 5P420-16-5237/A:

A. QUESTIONS AND ANSWERS

Q1. Would successful contractor be able to fence off an appropriately sized area of the parking lot (e.g., a back corner) across the highway and use as a lay down area for construction material?

A1. See DSP 3 – 16-5237 folder to see the sketch showing highlighted area in NW of parking lot that can be used for laydown / site trailer.

Q2. Will contractor(s) be able to use the small access area (shown below in picture) for unloading and craning construction material up onto plaza construction area on an as needed basis (coordinated in advance) during the work?

A2. Yes the area can be coordinated in advance for use.

Q3. If contractors are able to use a lay down area in parking lot across highway from hot pools could a site office trailer also be located here during construction?

A3. Refer to A1.

NOTE:

- There will be multiple projects in construction at points throughout this project and the roofing contractor is to be prime contractor.
- See DSP 3 folder for additional drawings and pictures on the curtain wall.

All other terms and conditions remain the same.
