Solicitation amendment 002 is raised to extend the closing date, provide clarifications to suppliers in the form of questions and answers and revise the ITT as follows:

The bid closing date is changed from October 18, 2016 to October 1, 2016.

DELETE: October 18, 2016

INSERT: October 24, 2016

QUESTIONS:

- Q1. In numerous places throughout the tender, delivery and install are mentioned. Can you please clarify if delivery and installation need to be included in each unit price? Not knowing what goods are going to what site nor the accessibility at each site would make it difficult to provide accurate costs. Or, does the successful vendor simply need to ensure that delivery and installation can be coordinated through them at an additional cost?
- A1. Delivery and installation costs should be included in each unit price. In order to assist suppliers in providing an accurate cost, Canada has indicated the institution where each items will be delivered in the revised Appendix B – Delivery Locations.
- Q2. As these items are for Correctional Service Canada, can it be assumed you require the correctional/maximum security package on each piece of equipment?
- A2. Canada does not require the correctional/maximum security package on the equipment.
- Q3. In regards to the skillets specifically, I've been told by two of the major manufacturers they do not manufacture 60 or 80 gallon skillets. Can you please confirm what sizes you require?
- A3. Please see the revised requirements in Appendix C – Minimum Requirements.

REVISIONS TO ITT:

At Appendix "A" – Various Food Service Equipment:

Delete: subsection 1.6 in its entirety

Insert the following revised subsection 1.6

- 1.6 Equipment must meet all applicable industry standards specific to the type of equipment. For deliveries to Quebec, where applicable, the equipment must also meet Quebec CSST safety standards.

Revise Section 6. Equipment Specifications - Electric or gas self-contained Steam Jacketed Kettle and Direct Steam Jacketed Kettle as follows:

Configuration

Free standing kettle must be in a tilting configuration and available in the following sizes:

- 40 gal (151 litres)
- 60 gal (227 litres)
- 80 gal (303 litres)
