Amendment #3 is raised for Request for Proposal (RFP) number W8476-175505.

The intent of this amendment is to provide clarifying responses to Industry questions and where applicable, amend the RFP in response to Industry questions.

Question 12:

In the A1 Annex of the RFQ, the required system interfaces are listed. Among them three designators. Regarding them, we have some practical questions:

- a. Are any of the three listed designators mounted together with a north finding device?
 - i. If so, how are they mechanically and electrically connected?
 - ii. If so, where will the system interface be, to the north finding device or directly to the designator?
 - iii. What kind of connector and electrical interface (RS-232/RS-422/USB/other) are in use for the three designators?

Answer 12:

- a. The laser target designators interface directly with a north finding device, to create an integrated system.
 - i. The laser target designator is electrically connected directly to the north finding device.
 - ii. The laser target designator connects directly to the north finding device.
 - iii. The interface is through either an RS-232 or RS-422 connection.

Question 13:

Ref RFP DACAS A0 Annex, BQ17-1 is estimated to April 2017. Are any other more exact dates available?

Answer 13:

Planning for Bold Quest 17.1 will occur during Bold Quest 16.2, taking place throughout October 2016. Further information may be available after that exercise, however at this point, Bold Quest 17.1 is scheduled to occur during the second half of March 2017.

****The Solicitation period has been extended from 2:00PM October 31, 2016 to 2:00PM (EDST) November 7, 2016.****
