2. Submission of Bids

3. Former Public Servants

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S. 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes** () **No** ()

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes** () **No** ()

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

4. Enquiries – Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than seven (7) business days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

5. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

Annex D Evaluation Criteria

1.0 Technical Evaluation:

1.1 The following elements of the proposal will be evaluated and scored in accordance with the following evaluation criteria.

- Mandatory Technical Criteria

It is **imperative** that the proposal **address each of these criteria** to demonstrate that the requirements are met.

- 1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.
- 1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated.
- 1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.
- 1.5 References must be provided for each project/employment experience.
 - I. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a Public Servant**, the reference must be a Public Servant who had a supervisory role over the proposed resource during the stated employment.
 - II. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a consultant**, the reference must be the Public Servant who was identified as the Project Authority of the project on which the proposed resource acquired the experience.
 - III. References must be presented in this format:
 - a. Name;
 - b. Organization;
 - c. Current Phone Number; and

1.6 Response Format

- I. In order to facilitate evaluation of proposals, it is recommended that bidders' proposals address the mandatory criteria in the order in which they appear in the Evaluation Criteria and using the numbering outlined.
- II. Bidders are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.
- III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.

- IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from his or her start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.

MANDATORY TECHNICAL CRITERIA –21470-19-2370718

1. Background / Contexte

Correctional Service Canada (CSC) is mandated, under the Corrections and Conditional Release Act (CCRA), to “provide every inmate with essential health care and reasonable access to non essential mental health care”

The Commissioner’s Directives 800 Health Services and its associated guidelines are the key references on essential health services (Clinical services, mental health and public health services).

The mission of Health Services is to provide offenders with efficient and effective health services that **encourage individual responsibility, promote healthy reintegration and contribute to safe communities.**

Health care services must respect gender, cultural, religious and linguistic differences, and be responsive to the special needs of women, Aboriginal peoples, persons requiring mental health care and other groups.

In order to support inmates in taking responsibility for proactively safeguarding their health, CSC provides:

- information and education on health promotion and disease prevention
- direct health care services

Le Service correctionnel Canada (SCC) est tenu, aux termes de la *Loi sur le système correctionnel et la mise en liberté sous condition*, de veiller « à ce que chaque détenu reçoive les soins de santé essentiels et qu’il ait accès, dans la mesure du possible aux soins qui peuvent faciliter sa réadaptation et sa réinsertion sociale ».

Les directives du commissaire de la série 800 – Services de santé et les lignes directrices connexes constituent les principaux documents de référence sur les services de santé essentiels (services cliniques, santé mentale et santé publique).

La mission des Services de santé est de fournir aux délinquants des services de santé efficaces et efficaces **qui permettent de promouvoir la responsabilité individuelle, favoriser la saine réinsertion sociale et contribuer à la sécurité des collectivités.**

Les Services de santé doivent respecter les différences entre les sexes, les cultures et les groupes linguistiques et tenir compte des besoins propres aux femmes, aux personnes Autochtones, aux personnes nécessitant des soins en santé mentale et d’autres groupes.

Pour aider les détenus à assumer leurs responsabilités afin qu’ils prennent des mesures proactives pour protéger leur santé, le SCC fournit :

- de l’information et de la formation sur la promotion de la santé et la prévention des maladies;
- des soins de santé directs.

Health Services are provided in ambulatory Health Care Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Inmates may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC's regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.

In broad terms, health care means medical, dental, mental health care and public health services. During the period of incarceration, inmates are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.

Within CSC the comprehensive health services provided to inmates are categorized into three (non mutually exclusive) service streams: clinical services, mental health services and public health services. Clinical Services refers to assessment, diagnosis and treatment of acute and chronic physical illnesses. Mental health care includes assessment, intervention, treatment and support services and discharge planning provided to inmates with significant mental health needs in the areas of emotion, thinking and/or behaviour.

Les services de santé sont fournis dans les centres de soins ambulatoires à l'intérieur des établissements, dans les hôpitaux régionaux et dans les centres de traitement / psychiatriques régionaux. Il est possible que les détenus doivent se rendre dans la collectivité pour y recevoir des soins d'urgence, des soins spécialisés ou pour y être hospitalisés, lorsque cela est impossible dans un hôpital régional du SCC. Au SCC, les soins de santé sont dispensés par des professionnels de la santé réglementés et non réglementés.

En termes généraux, les soins de santé comprennent les soins médicaux, dentaires, les soins de santé mentale et les services de santé publique. Pendant la durée de leur incarcération, les détenus ont droit à tout un éventail de services de santé coordonnés qui sont accessibles, abordables et adaptés au milieu correctionnel.

Au sein du SCC, les services de santé complets offerts aux détenus sont administrés selon trois catégories : les services cliniques, la santé mentale et la santé publique. Les services cliniques visent le dépistage, le diagnostic et le traitement des maladies aiguës ou chroniques. Les soins de santé mentale comprennent le dépistage, l'intervention, le traitement et les services de soutien ainsi que la planification de la continuité des soins offerts aux détenus qui ont des besoins importants en santé mentale pour ce qui touche les émotions, la pensée ou le comportement.

Public health consists of the services and resources on a variety of topics (mental health, wellness, infectious diseases etc) provided to inmates related to health promotion and education; disease prevention, control and management of infectious diseases and discharge planning for community reintegration.

La santé publique consiste en les services et ressources fournis aux détenus en ce qui concerne la promotion et l'éducation en matière de santé; la prévention, le contrôle et la gestion des maladies infectieuses; l'épidémiologie et la surveillance ainsi que la planification de la continuité des soins en vue de la réinsertion sociale dans la collectivité.

The purpose of this Framework and the [National Formulary](#) is the promotion of quality and consistency in health services across the country, and allows CSC to make decisions based on monitoring and analyzing the effectiveness and efficiency of essential health services.

Le but de ce Cadre et le [Formulaire national](#) et de promouvoir la qualité et l'uniformité des services de soins de santé à travers le pays et il permet au SCC de prendre des décisions fondées sur la surveillance et l'analyse de l'efficacité et de l'efficience des services de santé essentiels.

2. CSC National Advisory Committee on Essential Health Services / Comité consultatif national sur les services de santé essentiels du SCC

A National Advisory Committee on Essential Health Services was established in 2009 to provide an effective ongoing oversight mechanism to ensure accountability, consistency, cost effectiveness and best practices specific to the needs of CSC's population.

Un Comité consultatif national sur les services de santé essentiels a été mis sur pied en 2009 afin de fournir un mécanisme de surveillance continue pour assurer la responsabilisation, l'uniformité, la rentabilité et l'établissement de pratiques exemplaires propres aux besoins de la population du SCC.

The Committee is responsible for making recommendations to the Health Services Executive Team on new and emerging services and technologies and enhances national consistency through revision and updates to the Framework.

Le Comité formule des recommandations à l'intention de l'Équipe de direction des Services de santé sur les nouveaux services et technologies et accroît l'uniformité à l'échelle nationale grâce à des révisions et des mises à jour du cadre.

3. Access to essential health services / Accès aux services essentiels

There are several ways that health services may be accessed. Inmates may initiate access by submitting, in confidence, a request for health services (clinical services, mental health, public health), and indicating the reason for the request. Inmate requests are reviewed, prioritized according to urgency, and services are provided by a health care provider.

An inmate may also be referred to Health Services by any staff in the institution.

Some Health Care Centers have “drop in hours” where inmates can be seen by showing up at the Centre. Visits with Physicians/Specialists (including Psychiatrists) and other health care professionals are pre-booked according to need and institutional operational requirements. When inmates are referred to community medical/psychiatric services they are subject to the same waiting periods as community members. **The use of private clinics for the provision of essential health services is not permitted in CSC. Accessing community services is also subject to the operational requirements of the institution.**

Il y a plusieurs voies d'accès aux services de santé. Les détenus peuvent présenter, à titre confidentiel, une demande de services de santé (services cliniques, santé mentale, santé publique) en précisant le motif de leur demande. Ces demandes sont examinées et classées par ordre de priorité en fonction de leur niveau d'urgence. Un fournisseur de soins de santé dispense ensuite des services au détenu.

Un détenu peut aussi être aiguillé vers les Services de santé à la demande d'un membre du personnel de l'établissement.

Certains centres de services de santé ont des heures de cliniques sans rendez-vous durant lesquelles les détenus peuvent être vus lorsqu'ils se présentent au centre de santé. Les rendez-vous avec des médecins ou des spécialistes (y compris des psychiatres) sont pris à l'avance en fonction des besoins et des exigences opérationnelles de l'établissement. Lorsque des détenus sont aiguillés vers des services médicaux/psychiatriques à l'extérieur des établissements, ils sont assujettis au même délai d'attente que les membres de la collectivité. Le recours aux cliniques privées pour l'obtention de services de santé essentiels n'est pas permis au SCC. L'accès aux services offerts dans la collectivité est également en fonction des exigences opérationnelles de l'établissement.

Essential health services are funded by CSC for offenders residing in Community Correctional Centres in circumstance where Provincial Coverage is not available. CSC is not obligated to fund health services for offenders residing in Community Residential Facilities. Exceptions must be pre-authorized and approved in writing by the Regional Director Health Services or delegate.

Le SCC finance les services de santé essentiels pour les délinquants qui résident dans les centres correctionnels communautaires lorsqu'aucune couverture provinciale n'est disponible. Le SCC n'est pas tenu de financer les services de santé pour les délinquants qui résident dans les centres résidentiels communautaires. Les exceptions doivent être autorisées au préalable et approuvées par écrit par le directeur régional des Services de santé ou son délégué.

Limited Community Mental Health services (clinical social workers, mental health nurses and psychologists) are available in select locations for offenders with significant mental health needs.

Des services en santé mentale limités (travailleurs sociaux cliniques, infirmiers en santé mentale et psychologues) sont offerts dans la collectivité à certains endroits aux délinquants ayant des besoins importants en santé mentale.

4. Access to non-essential services / Accès aux services non essentiels

Non-essential health services will be at the inmate's complete expense including consultation fees; and at the discretion of the Institutional Heads, any associated escort costs. Health Services will assist with the coordination of arrangements for inmate requested services.^a Inmate access to non-essential health services will be in accordance with:

[Protocol: Requests for Non-Essential Health Services Paid by the Inmate](#)

Les services non essentiels seront entièrement à la charge du détenu, y compris les frais de consultation et, à la discrétion du directeur, les coûts connexes associés aux fonctions d'escorte. Les services de santé sont responsables de la coordination des dispositions relatives aux services demandés par des détenus^b. L'accès aux services de santé non essentiels sera accordé aux détenus conformément au :

[Protocole – Demandes de services de santé non essentiels payés par le détenu](#)

^a Form 532 (Inmate Request to Encumber/Disburse Funds) is completed by the inmate with the assistance of health services staff

^b Le formulaire 532 (Demande du détenu pour charger/déboursier des fonds) doit être complété par le détenu avec l'aide du personnel des Services de santé

5. Guiding Principles for decisions about essential and non-essential services / Principes directeurs relatifs aux décisions sur les services essentiels et non essentiels

The following guiding principles were considered in the development of the list (and exclusions) of funded services and are in accordance with relevant legislation, CSC Policy and CSC Health Services' Mission:

Les principes directeurs suivants ont servi de référence pour l'élaboration de la liste des services financés (et des exclusions) et est en conformité avec législation pertinente, la politique du SCC et la mission des Services de santé.

The goal is the provision of essential health services to CSC's inmate population;

L'objectif est la prestation de services de santé essentiels à la population carcérale du SCC;

CSC recognizes that health outcomes are a shared responsibility between service providers and inmates. Inmates will be expected to take responsibility and be proactive in safeguarding their health;

Le SCC reconnaît que les résultats en matière de santé sont une responsabilité partagée entre les prestataires de services et les détenus. On s'attend à ce que les détenus assument cette responsabilité et soient proactifs pour protéger leur santé;

In meeting its mandate to provide essential services, CSC should not normally exceed the level of health services that are available through provincially public-funded health and social service programs;

Dans le mandat qui lui est confié de fournir des services essentiels, le SCC ne doit normalement pas excéder le niveau des services de santé disponibles dans les réseaux de santé publics et de services sociaux provinciaux;

Provincially public-funded services vary across provinces and CSC is responsible for establishing national standards that promote effectiveness and efficiency;

Les services financés par les réseaux publics provinciaux varient d'une province à l'autre et le SCC est responsable d'établir des normes nationales qui favorisent l'efficacité et l'efficience;

Medical, dental and mental health care services will be provided by health care professionals conforming to professionally accepted standards

Les soins médicaux, dentaires et de santé mentale seront dispensés par des professionnels de la santé autorisés conformément aux normes professionnelles reconnues; et

Health services will be provided consistent with the unique requirements of the correctional environment emphasizing safety, security and in support of the inmate's correctional plan.

Les services de santé seront dispensés dans le contexte des exigences uniques à l'environnement correctionnel, la protection et la sécurité demeurant toujours des priorités de même que l'appui au plan correctionnel.

Incarceration presents an important public health opportunity to promote and protect the health of a population with a high co-morbidity of diseases at high risk of contracting and spreading infectious diseases.

Sur le plan de la santé publique, l'incarcération est une occasion de favoriser et de protéger la santé d'une population ayant un taux de comorbidité élevé, ainsi qu'un risque élevé de contracter et de propager des maladies infectieuses.

Public health services are tied to epidemiology and surveillance which are the on-going processes of collecting, analyzing and sharing information about risks and disease trends and distributions occurring in a population so that the appropriate prevention, education and treatment requirements can be identified.

Les services de santé publique doivent effectuer des études d'épidémiologie et de la surveillance, ce qui englobe la collecte, l'analyse et la communication continue de renseignements sur les risques et sur les tendances relatives aux maladies contractées au sein d'une population et elle vise à déterminer les mesures appropriées en matière de prévention, de sensibilisation et de traitement.

Essential health services are provided to inmates throughout their incarceration including assessment and screening at intake, the provision of acute and chronic care, intermediate mental health care, medical hospital care (CSC Regional Hospital and community hospital care when necessary), psychiatric hospital care (CSC Regional Treatment/Psychiatric Centres and external psychiatric hospital care when necessary) and the planning for health care services upon release into the community.

Les services de santé essentiels sont offerts aux détenus tout au long de leur incarcération, ce qui comprend l'évaluation et le dépistage à l'admission, la prestation de soins actifs et intermédiaire et de soins aux malades chroniques pendant l'incarcération et la planification des soins de santé en prévision de la mise en liberté dans la collectivité.

These principles recognize that the determination about which service is required for an inmate relies on the judgement of the healthcare professionals, based on a sound clinical assessment guided by professionally accepted standards of practice.

Ces principes reconnaissent qu'il appartient aux professionnels de la santé de décider des services à dispenser au détenu à un moment précis, en fonction de l'évaluation clinique effectuée.

Appendix B. CSC's Dental Service Standards / Annexe B. Normes de services dentaires du SCC

CSC's Dental Service Standards were reviewed and revised in 2012/2013 fiscal year in collaboration with a National Dental Working Group which was comprised of 5 CSC Institutional Dentists and Regional and National Health Services professionals and senior managers. A scan of provincial and federal dental plans was conducted and the information was utilized to help inform the working group during the revision.

For additional information related to the changes to dental services in CSC, please refer to the following:

Essential dental care focuses on relieving pain and infection, managing disease and providing education on preventative oral hygiene. Essential dental care will be guided by the following key features^c:

- 2) It maintains or restores function, in particular, the ability to chew food
- 3) It relies on active participation and individual responsibility of the patient/inmate to:
 - a) practice good oral hygiene
 - b) attend scheduled appointments
- 4) It provides management of acute and chronic oral disease
- 5) It provides information and education on oral health hygiene and the prevention of oral disease

Les normes de services dentaires au SCC ont été révisées en 2012-2013 avec la collaboration d'un groupe de travail national composé de cinq dentistes travaillant dans des établissements ainsi que de professionnels des Services de santé et de hauts dirigeants des administrations régionales et nationale. Les régimes de soins dentaires du gouvernement fédéral et des provinces ont été examinés et ont guidé les membres du groupe de travail durant leur révision.

Pour de plus amples renseignements concernant les changements aux services dentaires du SCC, veuillez consulter les documents suivants :

Critères de test diagnostique

Appendix C. Criteria for Diagnostic Investigation / Annexe C. Critères de test diagnostique

1.	The diagnostic test should be clinically indicated for the assessment and/or management of a disease state.		Le test diagnostique doit être indiqué d'un point de vue clinique pour l'évaluation ou la gestion d'un état pathologique.
2.	The use of a specific diagnostic test should be consistent with generally accepted clinical guidelines for the assessment and/or management of the disease state.		L'utilisation d'un test diagnostique particulier doit être conforme aux directives cliniques généralement acceptées pour l'évaluation et la gestion de l'état pathologique.
3.	The diagnostic test should provide the information required for assessment and/or management of a disease state and should generally be the least invasive and most readily available test.		Le test diagnostique doit fournir les renseignements nécessaires pour l'évaluation ou la gestion d'un état pathologique et doit généralement être le test le moins invasif et le plus facilement accessible.
4.	The following issues should be considered when ordering diagnostic tests:		Les questions suivantes doivent être prises en considération lorsque l'on commande des tests diagnostiques :
a.	The diagnostic test should contribute to the essential medical management of an inmate's health while incarcerated.		Le test diagnostique doit contribuer à la gestion médicale essentielle de la santé d'un détenu pendant son incarcération.
b.	The inmate's proposed release date and the proposed community and or province of final destination.		La date de mise en liberté proposée pour le détenu et la collectivité ou la province proposée comme destination finale.
i.	The urgency for acquiring the information generated by a diagnostic test;		L'urgence d'obtenir les renseignements fournis par un test diagnostique;
ii.	Requests for urgent and semi-urgent testing should be processed regardless of the inmate's proposed release date or geographic destination;		Les demandes d'examen urgent et semi-urgent doivent être traitées sans tenir compte de la date de mise en liberté proposée du détenu ou de leur destination géographique;

iii.	Depending on the inmate's release date and final destination, elective testing could be obtained by the inmate after release. In this situation the inmate should be provided with the appropriate advice and information concerning the diagnostic test required.		Selon la date de mise en liberté et la destination finale du détenu, celui-ci peut obtenir un test électif après leur mise en liberté. Dans ce cas, on doit leur fournir les conseils et les renseignements appropriés au sujet du test diagnostique nécessaire.
c.	The availability of local resources.		La disponibilité des ressources locales.
i.	If, for example, an MRI is requested and access to MRI is not locally available but CT is and the information obtained through computerized tomography would provide appropriate diagnostic information then CT should be an acceptable alternative;		Si, par exemple, on demande d'utiliser l'imagerie par résonance magnétique et que l'on n'y a pas accès à l'échelle locale, mais que l'on a accès à une tomographie par ordinateur et que les renseignements obtenus au moyen de celle-ci fourniraient des renseignements permettant de poser un diagnostic approprié, la tomographie par ordinateur doit être une solution acceptable;
ii.	Similarly, if CT abdomen is indicated but not locally available and Ultrasound is, if the information provided is appropriate to answer the diagnostic question then ultrasound should be considered an acceptable alternative;		De même, si une tomographie de l'abdomen par ordinateur est indiquée, mais n'est pas disponible à l'échelle locale, et que l'ultrason est disponible, et que les renseignements fournis sont appropriés et permettent de poser un diagnostic, on doit alors considérer que l'ultrason est une solution acceptable;
iii.	Consultation with the local radiologists may in some cases result in more timely investigation by utilizing an alternative and appropriate investigative modality.		La consultation des radiologistes locaux peut, dans certains cas, mener à un examen plus rapide grâce à l'utilisation d'une modalité d'évaluation de rechange appropriée.
