**ELEVATION 1 - PATIO** SCALE 1:20 2/3

**DETAIL - LANDING - PATIO** SCALE 1:10 5/3

- CONSTRUCTION NOTES:**
- Contractor must verify all dimensions and conditions on site before proceeding with any portion of this work. Do not scale from drawings.
  - Contractor must visit the site of the work prior to submitting a tender and become familiar with all scope and conditions of the work. Submittal of a tender indicates that this condition has been met.
  - Contractor to confirm extent of work on site. Drawings do not show demolition of existing stairs.
  - Provide all temporary facilities and enclosures as specified and as required by authorities having jurisdiction. Protect and maintain operational all entrances, exits, fire & life safety systems, corridors, etc. as required throughout the progress of the work. Securely lock and/or barricade door to prevent accidental use during construction.
  - All items removed are to be disposed of off site in an area approved by the municipality having jurisdiction.
  - Excavate existing embankment as required to install new stairs. Provide & install 150mm class 'A' compacted fill in disturbed areas upon completion of new work. Grade to suit site conditions and maintain proper drainage.
  - New stairs to meet NBC requirements, latest edition.
  - All wood members to be pressure treated. Field treat all cuts and drilled holes with preservative (2 coats). Remove and/or sand smooth all wood splinters.
  - All wood to be S-P-F. No. 1/2.
