Solicitation Amendment No 002 is issued for the purpose of providing answers to questions submitted to the Contracting Authority and to change the location of the Bidders Conference.

Question 2:

Reference Specification item HD-06, paragraph 2.1(16). Second coat states that Intergard 263 be applied to bared areas and entire hull area. Third coat states Interspeed 640 to bared steel areas. This would be applied after the entire hull has already been painted with Intergard 263. Please clarify if two or three coats of Interspeed 640 are required?

Answer 2:

Specification item HD-06, paragraph 2.1(16). Second coat is amended to delete:

“...light gray, at 4 mils D.F.T. to the bared steel areas ~~and entire hull area~~”.

Question 3:

Invitation to Tender, Part 7, Section 7.15.3 – SACC Manual Clause A02290C – Hazardous Waste Vessels. The legal text for this SACC clause requires that the Contractor acknowledge that sufficient information has been provided by Canada with respect to the exact location and estimated amount of hazardous materials. As insufficient information has been provided, it is suggested that Hazardous Waste if encountered should be treated as unscheduled work.

Answer 3:

Bidders cannot be expected to include costs associated with the removal, handling, storage, disposal and/or working in the vicinity of hazardous materials if the necessary information is not provided during bid solicitation. Costs associated with unidentified hazardous materials will be considered unscheduled work.

Bidders Conference:

The bidders' conference location is changed. The new location is in the “King Boardroom” located in the “Vulcan” building at the Bedford Institute of Oceanography.
