

201x THREAT AND RISK ASSEMENT
FOR (Name of installation), (province)
REMEDIAL ACTION PLAN

(Sector) analysis of the recommendations stemming from a 201x TRA of the (Name of installation), (province) facility indicated that the key areas require corrective action. Thus, (Sector)’ Security Coordinator and (Name of SBO), (Title) have developed the following Remedial Action Plan:

Number	Recommendation	Response	Timeline	Action	Cost

Total cost					\$approximately

TRA of (Sector)' (Name of installation), (province) estimated that the physical security risk level of the buildings overall is currently (**LOW, MEDIUM, HIGH**). The target risk level that NRCan strives for is **MEDIUM**. Implementation of this Remedial Action Plan would improve the security profile of the (Name of installation), (province) to an acceptable level.
