

QUESTION AND ANSWER NUMBER 1

SOLICITATION 5000024809

Hazardous Waste Disposal Services for a Three Year Period

- 1- Are the drums/pails referred to in the bid document labpacks of smaller containers or bulk liquid/solid?

They are usually smaller containers, less than 5 Liters and mainly aluminum and glass. Twice a year there is a full 105 Liter drum of either organic fish from contaminated water or sand from contaminated basins. An amendment has been posted to the Request for Proposal to include this additional requirement.

- 2- Is all the waste located in Burlington at 867 Lakeshore? Should we assume a pickup once per month?

Yes, the waste will be collected from 867 Lakeshore Road in Burlington, Ontario. Pick up will be scheduled on a monthly basis.
