Commercial parts consist of common non-aeronautical parts produced to recognized industry specifications and available on the commercial market. Deliverable standard and commercial parts must be in a new condition.

#### **1. Category #1 - New Materiel**

Deliverable end items to be manufactured or which have been manufactured but not used, which are supplied by:

- a. the owner of the design or manufacturing rights to the items; or,
- b. the authorized manufacturer or agent/distributor of the owner of the design or manufacturing rights to the items; or
- c. distributors approved by Transport Canada (TC) or accredited by the Aviation Suppliers Association, for parts that have an application to a civilian type certified aircraft; or

Bidders may use additional pages to provide the complete description called up under Category #3 if necessary.

Item	Category 1 New Materiel	Category 2 New Surplus Materiel	Category 3 Other Condition

1	_____	_____	_____
2	_____	_____	_____

Bidders are advised that it will be a requirement for the Contractor to provide the following airworthiness documentation, for each unit of issue, within the interior packaging or attached to the good(s) supplied under the resulting contract.
