Q1. What is the anticipated task authorization limit?

A1. The cumulative total of all task authorizations will be determined at contract award as the limit is the tool itself. The Project Authority may authorize individual task authorizations up to a limit of \$200,000.00, Applicable Taxes included, inclusive of any revisions. Any task authorization to be issued in excess of that limit must be authorized by the Contracting Authority before issuance.

Q2. Under the heading of Engineer of Record Role (B12) and Design Changes (B13), may we retain the Design Engineer to provide “Engineer of Record” verification that the remediation work completed meets original design requirements.

A2. As per R1410T GI9 Limitation of Submissions, a sub-consultant may be proposed as part of the Consultant Team by more than one Proponent, provided that the Proponent has written permission from such sub-consultant to propose their services in relation to the services to be performed. However, in order to avoid any conflict of interest, or any perception of conflict of interest, a Proponent shall not include in its submission another Proponent as a member of its consultant team, as a sub-consultant or special consultant.
