AMENDMENT 007

This amendment is being raised to respond to questions submitted in response to solicitation 5P420-16-5241/A:

A. QUESTIONS AND ANSWERS

Q34. Campsite markers – Specs are calling for existing markers to be reinstalled. I did not see any existing markers on site. Will they be supplied by owner?

A34. Site marker posts will be provided by PCA.

Q35. Is it acceptable that the square BBQ are returned to the owner with the concrete base still attached or does the concrete need to be removed?

A35. The square BBQ can be returned as is.

Q36. For the removal of the existing road (from the turnaround west through site 45 finishing at site 34), it seems unrealistic that the top 100mm of the road structure can be salvaged and used as a granular base course substitute. For the most part it looks cemented together fairly well and when broken off stays in large pieces. Is there any chance to add a line item for removal and disposal of this top layer of road surface?

A36. Bid according to the specification package and Bid Item list.

B. CLARIFICATION TO BIDDERS

The ECO Plan Package provided under DSP – 16-5241 is in draft mode and is for information purposes only. The final approved version will be provided to the contractor after contract award.

All other terms and conditions remain the same.
