Title: pharmacy services

This amendment has been raised to answer the following question:

Question: Please refer to Point-Rated Criteria Technical Criteria, item 2. on page 19 of the RFP. Would the Crown please define and/or provide examples of Pharmacy Patient Care IT programs?

Answer: The Pharmacy Patient Care IT programs currently in use within CFB Suffield Medical Centre are:

The Defence Medical Information Capability Programme (DMICP) (for British military patients, their dependents and other UK-entitled patients): This programme is based on an EMIS PCS platform.

Assyst RX (for Canadian military patients).

The requirement is to demonstrate experience of common use pharmacy IT services in order to show competence with electronic pharmacy provision: This includes, but is not limited to, the above named systems.

The successful bidder will be fully trained in the use of any required IT systems
