Opening of tenders:

THE CLOSING DATE IS DECEMBER 09, 2016 - 2:00 PM (ET)

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED

ADDENDUM No. 4

This addendum is an integral of the plans and specifications and should be read in conjunction with them. Items not mentioned in this addendum remain the same as described in the plans and specifications.

1. PRECISIONS ABOUT AUTOMATIC LUBRICATION SYSTEMS

The grease quantity shall be submitted to calibration since the method is not the same from a location to another, but the selected pumps give from 0.7ml to 3ml for the P-203 model and from .016ml/min to 24ml/min for the P-653 model, both with a 8 liters tank, such as described in the mechanical technical specification section 01 11 00, item 1.02.2.5.8 a/ .5 b/ .1 c iii. Currently, the lubrication of gears is done manually (with a brush) each 2 weeks. The pumps have the capacity to inject grease with a NLGI coefficient of 2.

The bidders shall provide to the suppliers, mechanical diagrams of the automatic lubrication system for a better understanding.

END OF THE ADDENDA
