**Amendment 004**

Amendment 004 is raised to

- 1) Incorporate Addendum #2
- 2) Extend the bid closing date.

\*\*\*\*\*

- 1) Please see attached Addendum #2
- 2) Extension of Time

**Extension of Time for Tenderers**

SAR Building Construction Fairview  
Harbour, Prince Rupert, B.C  
Solicitation No: F1700-165108/A

Notice is hereby given that the time for reception of tenders previously due at 2:00 p.m. P.S.T. on December 9, 2016 is hereby extended to **2:00 p.m. P.S.T. on December 13, 2016.**

**All other terms and conditions remain unchanged.**

***The following changes in the Tender Documents are effective IMMEDIATELY.  
This addendum will form part of the Contract Documents***

**Amend/revise the Standard Contract Documents as follows:**

**Clarifications & General Information**

1. See attached the following revised drawings, instructions and documents referenced in addendum 1, but not posted to the web site with addendum 1: **1/A7.01, 4/A7.01, 5/701, 6/701, 7/A7.02, A-M01, SOW.**

**Contractor Questions**

**Question:**

On the last page of addendum, page 8, you have a new detail of exterior door threshold , it looks like there is additional skirting that extends down below structural steel I beams? Does this detail go around all three sides?

**Response:**

Delete additional skirting to all sides. See revised detail **4/A6.03** attached.

**Question:**

I have just heard from our flooring subcontractors and they say they need a manufacturer or product name for the sheet flooring.

**Response:**

Any flooring manufacturer and type that meets the specification will be acceptable. The flooring spec is based on Mondo Harmoni or Mondo Natura.

**Question:**

Can you confirm if the deck that looks out over the wharf wraps around side of building as shown in appendix A or is it just the small deck on harbour side as shown in architectural drawings included on byandsell website?

**Response:**

Deck is to be provided as shown in Architectural drawings, not as shown in appendix A.

**Question:**

Can you tell me if the aluminum bases are supplied with rest of building, as notes on structural drawings for aluminum building says to fabricate bases?

**Response:**

All aluminium components detailed in drawings noted as drawing number 4-30-16-SF, sheets 1 through 11 are provided by owner as part of aluminium building package.

All components detailed on drawings S2.01 and S2.02 are to be provided as part of the contract.

**Question:**

It just occurred to me that some details show isolation material between dissimilar metals such as Q-dek to aluminum, steel stud to aluminum frame, but not aluminum frame to eps panels.

**Response:**

The galvalume skin on the EPS panels does not react significantly with the aluminium building frame. This system has been tried and tested in several applications. A concern for galvanic reaction between dissimilar metals is present with the steel deck and steel studs to the aluminium frame. This is due in part to the different volumes of dissimilar metals. So as a precautionary measure we are separating them with foam gaskets or membrane flashings. –see drawings for method at specific locations.

**ARCHITECTURAL**

Refer to architectural Drawings:

4/A6.03 – see revised attached  
Disregard revised 4/A6.03 issued in addendum 1.

**ELECTRICAL**

1. See attached Electrical Addendum 1 (8 pages)

**SPECIFICATION**

**SECTION 07 41 16 Pre Fabricated Wall and Roof Panels**

**1.5 .2 Installer Qualifications:**

Delete

- .1 ~~Installer shall be authorized by the panel manufacturer and the work shall be supervised by a person having a minimum of five (5) years experience installing insulated metal standing seam roof panels on similar type and size projects.~~

Add

- .1 .1 Work shall be supervised by a person having a minimum of five (5) years experience in construction supervision and the application of good trade practice in constructing pre-fabricated building assemblies.
