This amendment is raised to answer questions from industry and amend solicitation 5P435-175035/A as follows:

Q1: There is a requirement of the Skid steer loader to have a tipping load minimum of 4400 lbs (Compliance Matrix item 1.2) and machine weight without attachments a maximum of 6800 lbs (Compliance Matrix item 2.4). In order for the machine weight without attachments to meet that maximum designation we would be able to offer a machine with the tipping load of 4300 lbs, a difference of 100 lbs of your require specification, would this be viable?

A1: A minimum tipping load of 4300 lbs. will be acceptable.

Q2: We would also like clarification on a couple other required specifications. Machine must be equipped with hydraulic bucket positioning (Compliance Matrix item 4.3), what is meant by this designation?

A2: The hydraulic bucket positioning keeps the loader bucket level as the lift arms travel upward.

Q3: Hydraulic pallet forks (Compliance Matrix item 5.1 a) what is meant by this designation? (Side shift feature?)

A3: This requirement allows the operator to adjust the fork positioning to wider or narrower from within the cab using hydraulics.

On Page 13 of 15 Annex "C" – Compliance Matrix under item # 1, 1.2:

Delete:

1.2	Tipping Load must be a minimum of 4,400 lbs.	M			
-----	--	---	--	--	--

Insert:

1.2	Tipping Load must be a minimum of 4,300 lbs.				
-----	---	--	--	--	--

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
