## **AMENDMENT #1**

This amendment is put in place to revise the closing date of the RFP and to issue the first set of questions and answers. The new closing date is January 30, 2017 has indicated on Page 1.

## **QUESTIONS AND ANSWERS**

Question #1: Would Canada consider granting an extension to the closing date of the RFP to take into account the holiday period and to ensure that the industry is in the best position to submit a proposal?

*Answer #1 Yes, in light of the numerous request for extension, Canada will grant a 3 weeks extension to support industry in providing response to the RFP. As such, the RFP will be amended to reflect a new closing date of January 30, 2017.*

*Potential bidders should note that the Canada is not looking for an in depth evaluation or analysis of the whole mission in response to this RFP, but rather the capacity of the bidders to carry out the concept study and to demonstrate their deep understanding of the science and engineering aspects of such a space mission.*

*The evaluation criteria are geared towards such a response from the bidders. Hence, the amended RFP period should provided enough time for the bidders to convince Canada that they are qualified to carry out a space mission concept study.*
