This solicitation amendment #003 is raised to modify solicitation EW699-170520/A dated 2016-12-01 as follows:

1) Refer to "RS1 Phase I/II/III Environmental Site Assessments (ESA)":

DELETE: ".4.7 Collect all site information required to further assess clean-up criteria and assess the feasibility of various remedial options and associated costs necessary to attain preferred end land use. "

INSERT: ".4.7 Collect all site information required to further assess clean-up criteria and assess the feasibility of various remedial options and associated costs necessary to attain preferred end land use. ***This may include the provision of site specific archaeological advice.***"

2) **Questions & Answers:**

Q1) Please confirm that the Design and Tender Services are only for remediation of contaminated sites and project involving storage tanks.

A1) No Design and Tender service are not only for remediation of contaminated sites and projects involving storage tanks, please refer to the "Required Services" section.

Q2) Please confirm that the Site Supervision and Contract Administration Services are only for remediation of contaminated sites and projects involving storage tanks.

A2) No, Site Supervision and Contract Administration services are not only for remediation of contaminated sites and projects involving storage tanks. Please refer to the "Required Services" Section.

Q3) We know that there is a 3 page limit for the resumes of the core team members and alternates but are the CV's for the Senior Leads for both the North and the South also limited to 3 pages? RS5 and RS6 indicate that specifications are to be developed in both official languages or as requested. Can you confirm that both languages may be needed?

A3) Yes. All CV's are not to exceed the 3 page limit. Yes specifications may need to be developed in both official languages as requested.

Q4) In the Mandatory Criteria section 3.1.2 – Licensing, Certification or Authorization, could you please define which tasks require which licenses? For example, you may feel that a P.Eng. is needed for task 1.1.3 – Design and Specifications but not needed for task 1.1.6 – HHERA. We just want to ensure our team is compliant.
