**5. SPECIFICATIONS and EVALUATION**

DELETE In Its Entirety.

INSERT:

**5. SPECIFICATIONS and EVALUATION**

**Bidders may bid on one or multiple categories.**

For each mandatory technical criterion, the bidder must indicate whether the products proposed are compliant or not compliant by checking the appropriate box. The bidder must demonstrate clearly how the products proposed meet each criterion. Simply stating that they meet the criterion is not sufficient. When referencing other documents submitted with the bid, the bidder should indicate the exact location of the referenced documents, including the document title, page number and paragraph/subparagraph number. The bidder must provide a response for each criterion. The bidder must provide sufficient detail to permit a complete evaluation. The bidder must provide a response for each and all items within a category. Failure to do so will make the bid non-responsive.
