Amendment No. 004

This amendment is being raised to: 1) incorporate changes to the following section of the Request for Proposal (RFP): Appendix C – Price Proposal Form; and 2) provide responses to Requests for Clarification.

1) REVISIONS TO THE RFP

i) Reference: APPENDIX C – PRICE PROPOSAL FORM

Proponents are hereby instructed to:

Delete: In its entirety

Insert: APPENDIX C – PRICE PROPOSAL FORM – Revision 1 (appended to this amendment)

2) REQUESTS FOR CLARIFICATION

- Q1. On lock rehabilitation projects currently underway, 3D Scanning technology is being used. This provides a model of the locks, for use by Parks Canada Agency. Additionally, accurate scaled plans and elevations can be developed, with the stone joint pattern precisely recorded for the benefit of the Consultant and the Contractor to accurately record and measure repairs. Is this something PCA/PWGSC would consider on this project and would such work be contracted directly to the company providing this service? This is a valuable service, given that there are no accurate drawings of the locks available.
- A1. The Consultant can choose whichever method is most suitable to produce drawings for the tender documents. PWGSC has no preferences between standard measurement and survey, or 3D scanning technology.
- Q2. Is the cost for a trailer for the Resident Engineer to be included in the quoted fee, or will it be part of the Bid document requirements, requesting the Contractor to provide a small office in the site trailer with a desk and chair for the use of the Resident Engineer?
- A2. The trailer, desk and chair will be part of the construction bid, and therefore no cost to the Consultant's Resident Engineer. However, telephone (cellphone) and laptop with internet mobile connection is part of the Consultant's cost.
- Q3. Geotechnical Investigation and Report, Stone Investigation/Testing and Mortar Testing costs are dependent on the number of boreholes, cores and individual tests that are taken respectively. This item is not quantifiable for the purpose of the Proposal response. As such, either these quantities should be identified by PWGSC, or a budget for testing should be provided for all Bidders to carry. Is this something which PWGSC would consider?
- A3. Please see above Revisions to the RFP – Appendix C – Price Proposal Form – Revision 1
- Q4. In Section 3.1.2 "Consultant Team Identification" it is permitted to substitute a sub-consultant for the in-house team members. Can sub-consultant Similar Projects be similarly substituted for Section 3.2.1 "Achievements of Proponent on Similar Projects"?

A4. No.

Q5. With regard to SRE 4 – Price of Services - considering that prices 25% above the average are to be set aside, would this not also apply to prices 25% below the average?

A5. No, this does not apply to prices 25% below the average.

All other terms and conditions of the solicitation remain the same.
