Item 1: Question and Answer:

Q. Can you please elaborate on the type of magnetic cards and smart chip cards that are specified in the fuel management section (2.12)? Are these cards existing that the town using?

A. There is currently no fleet management or fuel dispensing lockout system installed at the sites. The type of fleet fuel management system required for installation as outlined in the 33 56 13 (2.12), should allow for lockout of dispensing system (to be installed) by card lock with digital tracking of the fuel dispensed to each card (cards will be assigned to vehicles and equipment onsite). The system will untimely be connected to the ARI fleet management system utilized by Parks Canada. See 33 56 13 (2.12) for specific requirement of the Fuel Management System.
