Amendement 1

This amendment was raised to answer questions:

Question:

1. Item 2, Standards
B. National Association of Trailer Manufacturers is a US based organization.
Q1 As CMVSS (Canadian Motor Vehicle Safety Standards) in part, provides regulations for trailers for use on Canadian highways, will the Customer accept a bid for a trailer that is compliant with CMVSS?
2. Item 3, Technical Requirements
O. Front mounted, full width, rectangular aluminum tube headache racks
Q2 What are the Customer preferred nominal dimensions of the headache racks?
3. T. Accessory item....winch, "trailer mounted steel winch plate"
Q3 As the self contained electrically operated hydraulic system is normally contained within a box mounted on the A-frame, the winch would typically be installed on the front of the main deck in the vicinity of the headache rack.
Will the Customer consider manufacturer suggested options for the optimal location of the winch?
4. Item 4, Deliverables, Delivery Date
Q4 The trailer manufacturer requires approximately 9 -10 weeks after receipt of order (ARO) to deliver a new trailer.
As this current bid closes 20 Feb, it may not be possible to meet the required delivery date of 31 March
Will the Customer accept delivery 9 - 10 weeks ARO resulting in a delivery date after 31 March?
5. Do you have a length required and a GVWR?
6. Also would you accept steel (painted or galvanized) as oppose to aluminum ?

Answer:

1. YES we will accept the CMVSS compliant trailers in addition to the standards listed in the RFP
2. Full width of the trailer bed, minimum height 6 inches, maximum height 18 inches, not to interfere with the operation of the winch.
3. Yes, suggested final location of the winch will be considered.

-
4. NO. Delivery points and times will be in accordance with clause 6.4.2 and 6.4.3 of the RFP
 5. See Annex A, Para 3 Technical Requirement
 6. No, Aluminum construction only as per Annex A, Para 3 Technical Requirement

All other terms and conditions of this Request For Proposal remain unchanged.
