**Amendment 001 is required for the following reasons:**

The following questions were received:

**Question 1**

In relation to mandatory criteria 1.29 – Must have external SD or USB slot for data transfer: “The [redacted] we intend to bid takes a CF card (compact flash card) which, if need be, slides into a small reader for your PC. Is this acceptable?”

**Answer 1**

Yes, the CF card is acceptable.

**Question 2**

In relation to mandatory criteria 2.5 – Tripod must not weigh more than 7 pounds: “Is this an error? It is never recommended to use such a light tripod with a robotic instrument due to the torque associated with motor drives”.

**Answer 2**

Our stated tripod weight was incorrect. The tripod should not weigh more than 17 pounds.

**Question 3**

In relation to mandatory criteria 1.32 - Must have a minimum wireless data collector communication range of 800m and have a unique Bluetooth address to avoid radio interference: “The requirements are stating that a minimum 800 meter Bluetooth communication range with the data collector is needed. Is this 800 meters linear from the unit or a recommended diameter?”

**Answer 3**

The 800 meter distance is linear, not diameter.

**Question 4**

Are cables for downloading both total station and data collector required even though a removable card or USB stick may be used?

**Answer 4**

Yes, cables must be included.
